## How Kinesiology Can Help You

by Stephanie Relfe B.Sc. (Sydney)

I learned a lot of things from one of my teachers, Robert Kiyosaki, author of <u>*Rich Dad, Poor Dad*</u>. Kiyosaki is a master at kicking people in the rear end, and getting people to realize that the cause of their problems lies within their subconscious mind and emotions. That is crucial to make major, permanent improvements in one's life.

Kiyosaki said that a friend is -

Someone who asks more of you than you ask of yourself.

So, I am going to attempt to be a friend and say some things that you will not have heard from anyone else.

Since you found this article, there is a much higher chance that you have been subjected to alien or military abduction or mind control, even though you have no conscious memories of it, than there is for other people.

If you have metaphysical abilities, there is a very high chance that you have been subjected to alien or military abduction or mind control at least once in your life. And maybe a whole lot more than that. The chances of this are even higher if you have had any experience in any military group, or have any family member in the military, especially if they are/were an officer. Whether or not you know you have them, your abilities could include:

- Telepath receiving (this can cause a lot of problems if you don't realize the thoughts in your head are not yours).
- Telepath projectional.
- Empath receiving. Picking up others feelings. (this can cause a lot of problems if you don't realize the feelings you feel are not yours).
- Sender able to move physical objects from place to place. Very valuable.
- Telekinetic.
- Able to open wormholes.
- Clairvoyant.
- Ability to kill with your mind.
- Manifestation (very useful).
- Ability to draw things towards you.
- Advanced knowingness.
- Advanced technical / mathematical abilities.
- Ability to produce fire.
- Advanced trouble shooting abilities.
- Healer.
- Medical intuitive (can see inside others' bodies)
- Super hearing.
- Abilities to do with voice or song.

The list is as long as your imagination.

The fact that you cannot remember any incidences, or using your abilities, does not mean anything.

Let me say that again, because this is the key to this article -

The fact that you cannot remember any incidences does not mean anything.

By the way, are you starting to feel some resistance to reading the rest of this article? I wouldn't be surprised if you are. Please be aware of this as you read this article.

Simple hypnosis plus certain drugs plus advanced technology is enough to prevent all conscious recall. Plus the desire to even attempt that recall.

My husband Michael and I released our training DVD series "Perfect Health with Kinesiology and Muscle Testing – The Revolution in Natural Healthcare" around June 2008. We did this because what worked for us, can work for you too. We really, really want abductees to know what is being done to them and to have the tools to fight back and to heal themselves.

But we have been shocked and disappointed at the low number of abductees who have obtained a copy. We are selling them, but mostly to people interested in natural health, not to abductees. And yet it is abductees who often have strange health problems, due to the stress of being adducted.

We spent four years going to a huge amount of trouble, expense, heartache and spiritual attack to make this training available. God meant this training to be made available, because many times when we needed something to create the DVD, it was given to us when we needed it. So we can only suppose that, as usual, God's time is not the same as our time. Still, we hope that the time when all people, and especially abductees, know how to do accurate muscle testing AND kinesiology to balance problems out of the body is fast drawing near.

We have come to the realization that the level of control of people and especially abductees is far, far greater than we could ever possibly have imagined. The size, strength and effectiveness of the level of control is truly extra-ordinary. This realization came after assimilating many different observations that we have made of the years, including but not limited to -

1) I gave drafts of the DVD training series, Perfect Health with Kinesiology and Muscle Testing, to a number of friends who are serial abductees. They raved about it when they received my package. But after they got the package, they did not 'get around' to getting past the first disk.

One lady had been begging me for MONTHS for the series. But when she got it, and sat down to watch it, she would suddenly get an urge to get up and drink a coke instead – even though she never drinks coke!

Another person was just 'too busy' to do it. Even though she had been waiting for YEARS for this information.

Which reminds me of another thing that Kiyosaki taught me. He knows something of the bigger games that are going on on the planet. (Or he did back in the early 1990s. Who knows who has got to him since then). He said that the name of the game on planet earth is -

#### BUSINESS

#### That is -

#### **BUSY NESS**

That is, as long as 'they' keep you busy, they keep you from your true purpose, which is growing and evolving spiritually, and helping others.

2) The low ratio of abductees to those 'just' interested in natural health who have ordered the DVD series (to date).

This makes no sense, especially since abductees usually have worse health problems than other people, and are open minded about alternative health. And it is abductees and readers of this site, and the tens of thousands of readers of "The Mars Records" who have learned from our experiences just how powerful kinesiology is – not just for healing all kinds of health and emotional problems, but also as a very powerful tool for learning when, if and how one is being abducted, and ways to overcome the effects of that.

Anyone who has an interest in subjects like abduction, mind control and metaphysical abilities, should realize that the chances are very, very, very high that they have been abducted because of THEIR metaphysical abilities, and that is WHY they are interested.

Having no memory or idea that you have even been abducted is NOT evidence that you have not been abducted.

Having conscious reasons why you should not do something like kinesiology which can do so much for you is not an answer either.

As Kiyosaki said -

#### YOUR REASONS ARE YOUR TREASON.

What that means is, everyone has CONSCIOUS reasons why they do and don't do anything. And why things are not better than they are. But the treasonous commands that are stopping you from improving your life are in your subconscious, where you cannot get at them normally. Kinesiology can help to get around that.

Perhaps you've seen something similar to this at a hypnosis stage show: The hypnotist will call up someone onto the stage, and tell them that when the hypnotist taps his tie, the person will stand up and open up an umbrella. The person then goes back to his chair, unaware that he has been programmed. As soon as the hypnotist taps his tie, the hypnotized person stands up and opens up his umbrella. (Audience laughs but they should really be crying because of this terrible evidence of brutal control). But the worst part is, that when the hypnotist asks them WHY they opened up the umbrella, do the say the truth? Do they say "because you programmed me to do that?". NO. They will make up something from their conscious mind that is as rational as possible, something like "I just wanted to test if it works"

3) A good while before the DVD, we went to a lot of trouble to create a dating site to help get fellow abductees together. I know that Michael and I could never have done what we have done without the support and constant watching from and communication with each other. We have managed to stay free of abductions for 6 years now – even though they keep trying different stuff on us. ABDUCTEES NEED SUPPORT. They need at least one other supportive person around who notices things and with whom they can discuss things. And also who is trained and with whom they can swap sessions of kinesiology and deliverance (and later on, clearing).

So we created a dating site where people could search for others who knew about aliens and other paranormal stuff. Hardly anyone joined, even though the price was minimal, and even when we made it free. So we closed it down. I know of at least six people who are VERY advanced in metaphysical abilities, who are not in relationships, are hardly ever IN a relationship, were given free membership, and never got around to signing up. Again, I think the program to keep people on their own so their 'owners' can get easy access to them has gone far deeper than I could possibly have guessed.

I recommend that anyone who is on their own, and thinks they may be an abductee or have metaphysical abilities, or wants to explore this, or who found www.metatech.org or www.TheMarsRecords.com, should arrange to be near someone who one can have as a friend or housemate – to help to get free, and to work on each other, until you find your soul mate.

4) There is a 'new' phobia. It's called "nomophobia". An incredible one in five people get it. It means that if they are out of range of a cell tower for their cell phone, they suffer as much stress AS IF THEY ARE GETTING DIVORCED OR MOVING HOUSE!!!! That shows that there is something highly advanced going on with cell phones. There is something in them that is addicting people to them and controlling them.

When you do finally get your "Perfect Health with Kinesiology & Muscle Testing" DVD, and test for cell phones, please do the test for emotional override. I believe now that all the muscle tests that I did that made it look as though cell phones aren't 'that' bad, were incorrect because I did not also test for emotional attachment.

People are now so addicted to their cell phones that even conspiracy researchers don't give them up. Why carry around a walking receiver for the kind of commands that are in the movie "They Live" to go into your brain, unless you have been programmed to do it?

5) We published "The Mars Records" in 2000. This was at considerable risk to our lives as certain INTEL spooks do not appreciate public knowledge of ongoing projects. I envisioned that within a few years there would be THOUSANDS of people who had not only done many hours of clearing, but who had also published their results. So we would no longer stand out. I envisioned an army of trained people who were doing all kinds of amazing things to free others, after having freed themselves, and helping others to realize the reality of this situation.

But things don't always turn out as we plan and the INTEL agents have had nothing to worry about. Hardly anyone has done any clearing, or kinesiology, or deliverance, as we did,. as of July 2008. The few people I have heard of who have had clearing sessions where they remembered abductions by reptilians etc. do not want to publish their session notes, even anonymously. Admittedly, I realized that people needed the wernicke's correction, and cloacals, and a whole bunch of other stuff that is on the DVD – but that just adds to my feeling of sadness when I see that the bulk of people purchasing the DVD are natural health people, and not the abductees or possible abductees who REALLY need this stuff, and who can do SO MUCH MORE with it.

6) Apart from "Pat" of The Mars Force, hardly anyone else has made the effort to do clearing sessions on these subjects.

Please take note of another saying that I learned at a personal development seminar:

#### FOR THINGS TO CHANGE, FIRST I MUST CHANGE

Please put that on your fridge. The ONLY person you can change is you. You cannot change anyone else.

Now, let's see one way that you can change, so that your life can get a whole lot better.

My husband and I have created a 12 DVD training course, **Perfect Health with Kinesiology & Muscle Testing – The Revolution in Natural Health Care**. This DVD is for everyone to improve their health, well being, emotional strength and energy. However, if you have been subjected to abduction or mind control or ritual abuse, there will be some extra things you should do. The techniques for these things are taught in the DVD, but their application to paranormal subjects is not mentioned, as the DVD is meant for everyone.

Therefore, this article will attempt to cover the techniques which Michael and I have found to be of benefit to ourselves, and other people who have been subjected to abduction or mind control. I do not have much experience with people subjected to ritual abuse, but much of the following techniques would be useful for these people as well.

Before you do the techniques below, please complete all of the DVD series, Perfect Health with Kinesiology & Muscle Testing, so that you will know what I am talking about and have some experience. I also strongly recommend that you read "The Mars Records" and "The Mars Force – Pat's Story" to see how we have used kinesiology very successfully for abduction and mind control. These 4 books are free to download from www.themarsrecords.com. Reading those books could very possibly stir up a whole lot of stuff for you to work on. Many people have told us they got super headaches and even fainted while reading these books. That indicates that there is something in that person's memory that has a lot of stress on it. Otherwise these people would not react like this. In addition, you can learn about the spiritual warfare aspects of this at "How to prevent military and alien abduction" here.

On the other hand, there is one reason why you may NOT want to read these books at this stage. If you do read these books, you are " front loading" yourself with new information. You may prefer to read them later on, AFTER you discover things about yourself. In that way, you then can't say "oh, I imagined all that, because I read of similar things in those books."

#### WARNING - BEFORE YOU START

Now, before we get started, there is something very, very important that I must warn you about. Please pray for protection and guidance both before, and continually while, you do kinesiology and muscle testing for abductees and mind control and ritual abuse victims. This is ESPECIALLY important if you work on members of the public. If you work on members of the public, do not be surprised if you get as many or more 'INTEL spooks' as clients on occasion, rather than people you can help.

This work is dangerous. You may think it is kind of cool and fun. If that is your reason, I suggest you do not work with members of the public. This is very serious. To learn how serious this is, read "Who Killed our UFO Investigators" and "Whistleblower Dies on Stage".

ONLY do this work because Yahweh God the Creator wants you to, and will give you protection and guidance. This is not a game. You get no special T-Shirt for helping other people. You have been warned.

#### PRETESTS

First of all, as for all proper muscle testing and balancing, you must do the pretests. Note that David Hawkins, author of "Power versus Force" does not even mention the pretests. The pretests are ABSOLUTELY ESSENTIAL for accurate results. Neither does Hawkins explain the many things that are necessary to do for a correct muscle test. Plus he says that one should say "resist" instead of "hold", which means that it becomes a test of strength, and not an accurate muscle test. I guess that's because he is a psychologist, NOT a kinesiologist.

If the person you are working on has been abducted, this can take longer than normal. Maybe even a lot longer than normal. They may be VERY blocked. As you learned in the DVD, if this is the case, do Emotional Stress Release. If the person is open to the possibility of abductions and mind control, while you do ESR, give a command to the person such as, -

"Have a look around and see if you were ever subjected to abduction or mind control."

The person may nor may not see anything. But in any case, the brain will still process the information. If you get them to do this while you do ESR for a while, you may get them to unblock.

#### **UNWANTED VISITORS**

Now if the person is an abductee or mind control victim, especially if this is their first session, it is in my experience that quite likely by now the two of you are not alone in the room. You may even smell or feel their presence by now. It is quite possible that right now you have in the room, or interfering from a distance, some beings such as reptilians or grays., or a human remote viewer When they are right in the room, I do not know if they are out of body, or doing some weird energy thing so they are physically present. I just know that I have experienced this with a number of clients.

It can be quite annoying to have a client come for some kind of normal problem and then find that at the very first session, the person is being blocked or switched because of the presence of a third party. I once worked on a woman in Dallas. From memory, things went as normal at the beginning of the session, but within about five minutes, nothing was working. Once you get very experienced at muscle testing, and know that you can get truthful answers (because your answers have led to improvements in people, or to them telling you things that agreed with the answers you were getting), you can on occasion do a silent, almost invisible muscle test. If you are holding their arm up, you can just ask the body TELEPATHICALLY, for example, as I probably did in that case in Dallas –

"Indicator change if this session is being interfered with".

If you get an I/C (Indicator Change) then ask "Indicator change if the interference is from beings -

"With bodies".

"Without bodies"

"Both"

Then continue questioning. However, since you are doing this telepathically, you need to be super fast and very gentle. The person may not even know that you are doing anything. In any case, the whole experience of kinesiology is so strange to most people, that they won't wonder at this.

In the case in Dallas, I got that we had two reptilians in the room. Now, this does NOT happen with most of my clients. Maybe one in 20 or less. My problem was – as is often the case – how to deal with this.. Generally I ask the person something like, -

"What's the weirdest thing you have ever read about on the internet, that just might be true?", or -

"I'm going to ask you a very strange question". (So they aren't so shocked when you ask them  $\dots$ ) – "Do you believe that UFOs exist?"

If they give a flat out vehement "No", then I drop the subject like a hot potato and see how I can help the person as best I can. If the person is not open and willing to learn more, then pushing too fast can do more harm than good.

I think with the woman in Dallas I may not have asked her this question. I think I may have just said something like –

"I'm getting that we have some kind of spiritual interference in the room. Would you be willing to pray with me to remove it?"

She looked kind of wondering, but nodded. We each did a silent prayer, which removed the reptilians. I then went on with the session. Unfortunately, I learned later after I left Dallas, that she later got pregnant to her newly wed husband, but then had a miscarriage at 4 months. I am quite sure that the reptilians took that baby. I will never know whether or not I should have told her more, but one cannot help anyone if the person runs from the room thinking that you are crazy. And one can't give too much information to anyone at one time.

#### **MORE ON PRETESTS**

For the rest of this article, I will assume that you are working with a willing client who is open to what is possible.

If the person is still blocked after you have done as much as you can, drugs may be involved. In that case, it can help to muscle test for –

"Indicator change if there are any drugs that this body needs to balance out" and test the number (zero, one, two etc.)

The trouble is, if they are blocked, how are you going test them? One way is that when you are very good and practiced at correct muscle testing, you can sometimes get some kind of answer, even when they are blocked. When you do this, your test is super, super light. They may not even move their arm, but you will still 'get' the answer you are looking for (the truth). You are using the body to access your own knowingness. As always, you still keep an open mind to the answer and ask yourself "Is there a lock?".

If you 'get' that there are drugs involved, to get an unlocking muscle so that you can balance out the drugs, you may need to simply use INTENTION to get them to put the drugs into circuit, so that you can balance them out.

#### **'INTEL SPOOKS' AS CLIENTS – AND OTHER PRECAUTIONS**

Testing a client telepathically can also be useful if you have ANY thought that they could be an intel spook. In fact, this is a good idea to do for all clients. If they are a spook, don't' tell them you are onto them. They may not even know they are one if they are mind controlled. Just do what they came for – eg: fix up their back. Or before you book them in, tell them that you are sorry but in their case you are not able to help them. Do not give any reason, just say that you can't help them.

A word of warning about INTEL spooks. If you ever 'get' that someone may be a spook, and decide you want to do a session anyway, make sure you ask them AT THE LAST MINUTE if a friend of yours who is learning kinesiology can also be present at the session. Especially do this if THEY are bringing a second person to the session. I once had a man book in with me who was a new customer, who had only a few simple problems. I think it was Michael who "got" that he was a spook, especially after the man asked if a woman friend of his could attend the session. We tested Michael to find out if he was a spook or not, and got that he was. So when he turned up I asked if Michael could be present, since he was learning kinesiology. The woman never came in – she stayed in the car. Nothing abnormal happened during the session, but I think that something would have happened if Michael had not been there.

Remember that these are people. They have lives just like you. They are overworked and underpaid. And in addition to all the government rules and B.S. they endure, they have no one to talk to about their job or the projects they are working on. And THEY get mind controlled to make sure they keep everything secret. So if you become a practitioner, always protect your physical person (never be alone) and try to help whoever you can. They are not the enemy. The beings that control them are the enemy. And when you help someone, you do YAHWEH's will and those bad beings plans will be set back.

Another thing to remember. Never get involved with "secrets" or "classified" information. If ANYONE ever offers to share with you ANY secret information, run, do not walk, to the nearest exit. You ARE NOT a spy or law enforcement professional. You are not a part of their world. Do YAHWEH's work to help others and that's all.

Hopefully, you will never need this kind of warming in your whole life. But depending on what you are doing to help free the planet, and until you know everything about what has been done to you, and what your abilities are, and how important your bloodline is to the evil ones, anything is possible.

In any case, it is always important protection to not see anyone at your own home, unless you know them well. All strangers must be seen at a public center where there is someone else present in the building who has seen your people. You can rent rooms at alternative health centers and at some chiropractors.

#### **MORE ON PRETESTS**

Be prepared for anything with a brand new person, even if you know them well. I will always remember the first time I worked on Pat of "The Mars Force". We had communicated a number of times by email and I liked her very much from the emails. I also liked her when I first met her, after she traveled to our home in Norfolk, Virginia. She seemed very intelligent and ladylike, with a lot of gentleness and internal strength. She is very soft spoken. I will quote from "The Mars Force – Pat's Story" –

Michael and I picked Pat up at the bus station. Although she had come a long way, I felt that I should give her a short kinesiology session that evening. The session was done in my home. It was lucky that God was looking after us and made sure that the first session was on a Sunday, because Michael was at home and he was definitely needed!. Pat lay on the massage table but almost as soon as I started to muscle test her I got a violent reaction. After doing sessions on hundreds of different people, I had never seen anything like this.

She was blocked, which is not unusual. What was unusual was that as soon as I tried to unblock her she began to scream. Plus her left arm started moving in circles all by itself. It would start at her side and then move in a jerky movement across her body. Then move back to her left side and then start off again. I felt that it was her body reliving a time when it was pulling against restraints. Pat thought it might have been her deflecting energy, possibly in some way connected to the "alters" that we later discovered she had.

I called in Michael to help me and it was only through the deliverance that he did, with the help of Jesus Christ, that I was able to continue at all. The first session was quite frenetic and I did not take many notes, although it was taped and we were able to later on hear again the screams that suddenly came out of Pat's mouth – a lady who until then had appeared very gentle, soft spoken and ladylike.

I got that she had metaphysical alien circuitry on her and began to remove it, while Michael was praying for her. She also seemed to have metaphysical implants in her which I removed as best I could.

If we had never taped those sessions, I doubt that Pat would ever have remembered or believed that she was had actually SCREAMED during the session!

If you are having trouble with the pretests, at least give them a glass of reverse osmosis water, so that at least dehydration should be taken care of.

#### **BALANCING OUT DRUGS**

If the person has been abducted or subjected to mind control, it is almost guaranteed that they will have been given drugs. Test how many different drugs are available to be balanced out. Then balance them out one by one. Call each drug "Drug number one", "Drug number two" etc., since we don't know the names of most of them.

Do this anytime you get stuck during a session.

#### **CENTERING & 14 MUSCLE BALANCE**

Once you have finally got all of the pretests in order, make sure you do the same balances that you would do for any client. That is, check first that their Centering is in balance. As you learned in the DVD, do it once with eyes open and again with eyes closed. A number of abductees will have everything in balance with eyes open and nothing in balance with eyes shut, because their eyes were shut when horrible things were done to them.

And then, as for every client, do a 14 Muscle Balance, with eyes open and with eyes shut.

As you learned in the DVD, write down everything that you find out of balance, so that the next time you work on them, if the same systems are out of balance again, you can lock in the weakness and hunt down the cause of the imbalance. It can take a few sessions before even a normal person, let alone an abductee, stays permanently in balance, because you have removed the hidden layers of stress that were stored in the person.

Once you get their Centering and 14 Muscles to stay in balance, they will probably feel wonderful, or at the very least, a whole lot better than they used to feel.

#### WARNING – BOOBY TRAPS

THE MOST IMPORTANT THING TO DO FOR ABDUCTEES AND VICTIMS OF MIND CONTROL AND RITUAL ABSUSE, or anyone who has or may have metaphysical abilities.

CRUCIAL: At the start of every session, after you have done the pretests, test for blocks for finding "Booby Traps", followed by a test for "Booby Traps".

A Booby Trap is just a special kind of Wernicke's command, but it can be deadly.

Because removing Booby Traps is so absolutely essential for anyone who has any interest in UFO or paranormal subjects, or has ever had any unusual experiences, I strongly recommend that people do this. Instead of doing the normal order of DVDs, do disks #1, #2 and then go straight to disk #11 of Perfect Health with Kinesiology and Muscle Testing.

#### Booby traps fall into three categories:

#### 1) Commands to die if the person remembers. Examples that I have found on people are:

"Die if you remember this." Most people who have booby traps have this one. Note: the word "this" is usually, but not always, in the sentence, to keep it specific.

"Kill yourself if you remember this." Most people who have booby traps have this command also.

"You'll be dead if you remember."

"You will not live if you remember."

"Your heart will stop if you remember."

"Have heart failure if you remember this."

"Have a heart attack if you remember this."

"Have cardiac arrest if you remember this."

"Die of heart failure if you remember this."

"Have a heart embolism if you remember this."

"Your heart will stop if you remember this."

"Don't remember this or your heart will stop." "Your heart stops beating if you remember this." "Have kidney failure if you remember this." "Your kidneys die if you remember this." "Your liver will stop functioning if you remember this." "Your spleen ruptures if you remember this." "Have a stroke if you remember this." "You will have a stroke if you remember." "Have an accident if you remember this." "Have a brain hemorrhage if you remember this". "Have cerebral hemorrhage if you remember this." "This will happen if you remember this." (shows person a video of horrible things) "You're dead if you remember this." "We'll kill you if you remember this." "You'll go insane if you remember this." "Stop breathing if you remember this." "Die in pain if you remember this." "Drop dead if you remember this." "You'll suffocate if you remember this." "Have brain cancer if you remember this." "Have lung cancer if you remember this." "We are going to disembowel you if you remember what we've done." "We're going to kill you if you don't obey us." "Expire if you don't follow your programming." "We will disintegrate you if you don't follow your programming."

"Meet death if you remember this."

"You will die if you think about this."

"Your brain will be damaged if you remember."

"Your mind will be erased if you remember."

"You'll lose your mind if you remember.

"You'll go insane if you remember."

"Your nervous system will shut down if you remember."

"Disloyalty means death."

"There is pain for disobedience."

"You'll forget this or die."

"Forget this or die horribly."

"Remembering this brings pain."

"You will die if you recall this."

"Thinking of us gives you a headache."

"Remembering this occludes blood flow to the brain."

"Remembering this releases blood clots to the brain."

"You hypothalamus will shatter if you remember this."

# 2) Commands to kill the person who helps them to remember (that is, you). Examples that have been found are:

"Kill the person who helps you to remember this."

"Kill the person who deprograms you."

"You'll kill anyone who helps you to tear down your programming."

"Zap anyone who helps you."

"Destroy the reputation of anyone who helps you deprogram".

# 3) Commands that relate to endangering others. The third category may not hurt anyone, but it could stop you from getting yourself free and cleaned up. Examples I have found on another are:

"Kill your daughter if you remember this."

"Kill (name of son/daughter) if you remember this."

"Kill your son/daughter if you remember this."

"Kill your mother if you remember this."

"Your family will die if you remember this."

"You put your family in danger if you tell anyone about this."

"(name of loved one) will die if you remember this."

A woman healer was murdered by one of her male clients in Melbourne Australia around 2000. I believe that it is possible and even likely that the man was a victim of mind control and the healer inadvertently removed the blocks to his memories, without first removing any booby traps.

Do not underestimate the power of booby traps. I once worked on a woman who had many health problems (eg intense stomach pain) as the result of abduction by reptilians. I removed ten wernicke's commands to stop her from remembering. After two sessions her health problems went away. BUT, I forgot to look for any booby traps as at that time I thought that only the military used these. A few weeks later she went to a doctor, thinking she had a minor stroke, plus she started 'talking funny' – it was like her brain wasn't working correctly. I then tested and found five booby traps including "Have a stroke if you remember this" and "Have an accident if you remember this". She was fine after that.

#### HOW TO LOCATE AND REMOVE BOOBY TRAPS

First, Find Blocks that Prevent Locating Booby Traps

Say "Indicator change for the number of commands to be removed that might stop us finding any booby traps". Then identify them. Examples that I have found include:

"Don't look there"

"You can't see them"

"They don't exist"

"They're somewhere else"

"They are protected"

"They are invisible"

"They are shielded"

"They can't be removed"

"This is a permanent condition"

"These cannot be fixed"

#### **Finding Booby Traps**

Once these have been found and removed, test if there are any booby traps to be removed. Say

"Indicator change if there are any booby traps present".

Then muscle test. If you get an indicator change, there ARE booby traps to be removed. Then muscle test for the NUMBER of booby traps to be removed. This helps to make sure you get them all. Say:

"Indicator change for the number of booby traps present".

Then identify the booby traps. Also identify what species of being gave the person each booby trap.

It is important to check for booby traps at the start of every session. And periodically during a session.

A booby trap is just a special kind of Wernicke's Command. You treat it exactly as you would treat a Wernicke's Command.

#### WERNICKE'S COMMANDS

Once you have removed any booby traps, you are now free to go hunting for other wernicke's commands.

Here are some suggestions as to what to test for:

#### **BLOCKS AGAINST KINESIOLOGY**

Muscle test to see if there are any commands against:

- 1) Kinesiology
- 2) Clearing or the biofeedback meter
- 3) Deliverance / Prayer
- 4) Effective personal development
- 5) The Relfes / Stephanie Relfe / Michael Relfe
- 6) The Mars Records

Please email us and let us know what results you get! We have found that some people have these.

#### WERNICKE'S COMMANDS AGAINST REMEMBERING SOMETHING SPECIFIC

"Indicator change for the number of wernicke's commands that are available to be removed related to memory."

Test from zero to the number. Once you have the number, go find them.

If the person was subject to mind control or alien abduction or military abduction, my experience has shown that it is highly likely that they will have at least the following two commands to prevent memory regain:

"Forget this"

"Don't remember this"

Here are some other examples that I have found:

"You'll never remember this."

"Forget this happened."

"You'll never remember this."

"You have no memory of this."

"This is not happening."

"Mind control is deactivated." (presumably that can always re-activate it later)

"All alternate personalities are deactivated."

"This never happened."

"Forget your visit here."

"You won't remember coming here."

"This isn't happening."

"Forget this."

"Forget this night."

"Forget about the military."

"Forget about aliens."

"Forget about this facility."

"Forget this happened."

"You imagine this happened."

"It's just your imagination."

"You're imagining this."

"You made this up."

"This was all a dream."

"This is all a dream."

"This is just a dream."

"You're dreaming."

"This is a dream."

"This is all a dream."

"It's just a dream."

"We're not here."

"This never happened."

"You weren't here."

"Forget us."

"This is not happening."

"This never happened."

"This didn't happen."

"Aliens don't exist."

"You have no memory of this."

"This night is erased."

"There are no aliens."

"None of this happened."

"This isn't real."

"You were never here."

"You weren't here."

"You're not getting any images" (from a doctor). Michael got that this was a joke on their part, because he often says during sessions "I'm not getting any images."

"All of this didn't happen."

"You're not here."

"Don't think about this."

"Think of something else if you remember this."

"Forgetting this brings pleasure."

"Forget this processing."

"Forget what I told you."

#### GENERALIZED WERNICKE'S COMMANDS AGAINST REMEMBERING

Note that the above commands tried to be specific about forgetting just one period in time. They were not all inclusive. For example, they nearly always include the word "this" in them. While this can have spillover into a person's life, so that they affect the person's life, the above commands are not nearly as bad as other commands that I have found which are not specific.

I can only imagine that the commands which are not specific were done by people who were stupid people, as well as being evil, because they don't understand what they are doing with words and mind control. When a command to 'forget' is not specific, it can ruin a person's life in limitless ways, such as causing a person to be unreliable and untrustworthy, because they cannot remember things that they have told another person that they would do. This will negatively affect their professional career, personal relationships, finances, efficiency and personal growth.

The following are some of these commands which I have found, which can really mess up a person's by affecting almost every area of their life:

"Never remember."

"You can't remember."

"You can remember nothing."

"You never remember anything."

"You'll never remember anything".

"Don't remember everything."

"Forget about forgetting." (that was a particularly nasty one).

"Don't remember."

"You won't remember."

"You can't remember."

"You won't remember a thing."

"No remembering."

"Stop remembering."

"You'll never remember"

"You will not remember."

"You can't remember."

"You will forget."

"You have no memory."

"Your memory is offline."

"Total recall is off."

"Your photographic memory is deactivated."

"Your memory is scrambled."

"Forget everything you've seen."

"Forget."

"Forget everything."

"Always forget."

"Go to sleep."

"Go back to sleep."

"Stay asleep."

"You're at home."

"You have no memory."

"Memory blocks are on line."

"Memory is forbidden."

"Memory is shut off."

"Your mind is off line."

"Your memories are deactivated."

"You cannot recall."

In addition, for each command, test whether it was deliberately inserted into the person or accidentally received. If it was deliberately inserted, test what specie/s gave it:

Human

Ceremonial Magician (we have found that these beings are so demonized that the body no longer regards them as 'human')

Reptilian

Draconian

Gray

Hybrid

Other Alien

Other

#### **COMMANDS TO OBEY**

Examples that I have found that were deliberately given to the person are:

"Obey."

"Obey your commands."

"Obey immediately."

"You will comply."

"You will obey."

"You will obey."

"Obey ASAP."

"Do as you're told."

"Do as we tell you."

"You are ours."

"We own you."

"Serve us."

"Give yourself to us."

"You work for us"

"Surrender to me."

"We are your master."

"Our will is your will."

"Follow out orders."

"You have no will but to serve us."

"You are our slave."

"You are totally committed to us."

"You're charged to obey."

"We own you."

#### **COMMANDS AGAINST MANIFESTING**

There could be at least up to 20 of these. Check to see what species gave them to you. The following were given by Draconians.

Examples include:

Don't manifest.

You can't change anything.

Que sera sera ("What ever will be, will be." Note: Doris Day programmed this into nearly everyone with her song. I was going to embed her singing it, but I can feel the programming in it very strongly).

You don't know how to manifest.

You'll never manifest.

Don't create your reality.

Don't change this reality.

This is not yours to change.

This is not your reality to change.

Changing reality is dangerous.

Changing reality will kill you.

Changing reality is forbidden.

Changing reality is prohibited.

You'll be punished if you change reality.

Don't think you can change your reality.

(The brain removed the rest after this by itself. This is not uncommon, the brain learns quickly).

#### **OTHER WERNICKE'S COMMANDS**

Here are some other subjects you could test on:

"Indicator change for the number of commands that are available to be removed that are related to suppression of metaphysical abilities."

Every now and again, test for the number of metaphysical abilities that the person has. Do the best you can to identify each one. Realize that some of them may not even have a name to cover them. Some of these abilities are to do with other universes and dimensions. This whole subject gets very mind expansive.

"Indicator change for the number of commands that are available to be removed that are related to suppression of wealth."

It is our experience that many abductees and mind control victims have cashflow problems BY DESIGN. People who are in constant drama due to lack of money are much easier to control. And less likely to spend money on things that may help them to wake up and get free.

"Indicator change for the number of commands that are available to be removed that are related to suppression of relationships."

Here's another type:

"Indicator change for the number of commands related to obeying".

It is our experience that many abductees and mind control victims have relationship problems BY DESIGN. People who are on their own or with someone who is not aligned with them are much easier to control. And less likely to find out things and get free.

#### **METAPHYSICAL CIRCUITRY**

I mentioned that Pat had alien circuitry on her body. A lot of people have this. To find it, do a 'body scan'. Move your hand over their whole body while you test Anterior Deltoid. When you get an I/C, you may have something to be removed. Once you locate it, you may be able to 'see' or sense it.

This circuitry is invisible and metaphysical, but it's still there. It can be in the form of:

Plates, with bolts at the corners, especially over the heart.

Wires, especially coming out the crown chakra and ears, and back of the knees.

Etheric eggs.

Worm holes to other dimensions (especially on the back of the knees)

Shields to cut you off from earth's energy.

Anything else that your 'imagination' (i.e. intuition) presents to you.

Favorite places that they like to put this stuff are:

Heart

Third eye.

Base chakra.

Back of knees (especially in conjunction with other stuff)

Solar Plexus

Throat

Remember that chakras come out the back as well as the front of the body.

This circuitry can be within or on the body. Or several inches or even several feet outside the body.

To get rid of it, grab it and with a lot of intention, pull it off and throw it away, and click your fingers as you throw it, to help vanish it.

#### **BALANCING OUT THE C.I.A. & MICROCHIPS FROM VACCINES**

In this article, I explain how I discovered that the C.I.A. and probably other organizations have put a microchip into vaccines which lowers a persons metaphysical abilities. I assume that they can reverse this whenever they need to use the person.

So, test for and balance out the following: -

Central Intelligence Agency

Microchips

Anything else that you think of related to this

#### **ALTER PERSONALITIES**

I have not had as much success with this as I would like, but I have had at least some success. It can certainly help to periodically test for how many alters the person has. And to find what species or organization gave the person each alter. And the purpose of each alter. Even that knowledge can help the person to as-is some of their mind control, and to help the alters to heal. Their prayers will be move powerful when they know specifically what to pray for.

#### **IDENTIFYING A CAUSE**

This can be a great way to help to convince a person who is open minded but not sure that they have been abducted. Find a weakness and then lock it into circuit, as you learn in Disk 12.

If you get that the cause is something that could be related to abduction, then test to see if the cause was in fact an abduction, or something forcefully done to the person that the person has no conscious memory of. I have found that if a person had bad stuff done to them by a parent or relative,, as part of a ritual, that it won't register as an 'abduction' because the person was never taken, they were "volunteered".

I have found that often if the cause of a problem is the emotion "No choice", that the emotion came from an abduction or sexual abuse. "No choice

This has worked for me on a number of occasion. For example, one woman had problem sleeping (hardly surprising when they usually abduct people when they are asleep). No matter what a person's symptoms are, you still do the same things. When I balanced her a second time, her cloacals were out of balance. So I locked in this weakness and located the cause. I don't remember the exact way it turned out, but by using the techniques you will learn in Disk 12, you are not front loading the person. You are just going through lists of things that could be the cause, which narrows it down. Finally, I got that she had been abducted by reptilians. Once I did some Emotional Stress on this, her cloacals were able to stay in balance, and her sleep was able to improve.

However, symptoms like this will only improve long term if the person believes what is going on (which she didn't), and joins in the fight and determines to be vigilant against further attacks. Kinesiology is a major weapon for this.

#### **TESTING IF A PERSON HAS BEEN ABDUCTED**

Remember, you MUST keep a totally open mind when doing this. While you can do it this way, it's often better to find out that a person has been abducted by doing it the way I described above – through locating the cause of a particular symptom, rather than going straight in for questions like below. This is called "front loading". However, if you are really good at getting accurate answers and keeping an open mind, here is what you do:

Say and test -

"Indicator Change the number of times this person has been abducted"

Test zero, one, more than one.

If 'more than one", test "more than 10" to narrow it down more quickly.

etc.

Note that this test has problems associated with it. There is a lot of emotion with this, and maybe a lot of programming and hidden layers. So this answer may not be the truth, but it can still often provide an accurate answer, and a surprise to the person who is tested. Test this every now and again after you have removed other layers of the onion.

If you get a zero, test and keep an eye out for possible interference.

Sometimes when I think I get interference, I pretend to walk away from the person, then quickly rush back to test again – and then get a different answer!

Once you know the number of times the person has been abducted, then test for which species were involved, including:

Humans

Reptilians

Draconians

Greys

Insectoids

Hybrids

Other Aliens

#### LAYERS OF THE ONION

Remember, as for all kinesiology, the different imbalances and commands etc. are in layers, like layers of an onion. So you need to periodically check again for the same things that you have already done on the person. Things like booby traps, wernicke's commands, circuitry, interference, false memories etc.

PLEASE do not delay. Get the DVD series <u>Perfect Health with Kinesiology & Muscle Testing</u> – <u>The Revolution in Natural Healthcare today</u>. Do not let your conscious reasons for not doing this now get in the way. This knowledge will benefit you and your loved ones in many, many ways for the rest of your life. And save you a fortune now or later in health care. Remember, there is a full 60 day money back guarantee if you don't really love it as much as I say you will.

I am offering to www.Metatech.org readers only a special offer. If you cannot afford the DVD set today, even at the low monthly payment plans, email me and tell me your situation, and I will see what I can work out. We really, really want people who have metaphysical abilities and who want to help the planet to benefit from this knowledge, so that together we can all be free.

#### **CONSIDER A JOURNAL**

If you keep a journal of all the strange things that happen in your life, it will help you to keep doing things to get free when your mind and the bad guys try to get you to stop. You might include in your journal things that happen when you are doing the kinesiology DVD, and other things such as deliverance to get free. You might also include a list of evidence that you are an abductee (members of the family in the military, freemasons in the family, missing time, strange experiences, extended time spent in Europe or near military bases etc.). Obviously, keep it in a secret place. Just remember that anything you write down could be used against you at some future time, even by family members.

Here's an example of the kind of thing that you might include. A woman who purchased the DVD emailed us:

I just "watched" the emotional stress relieve section and went totally unconscious, just woke up and feel like I been hit by a truck!

#### **SPECIAL NOTES**

1) It is suggested that metatech readers who purchase the DVD set do the disks in a different order from other people. You could do Disks #1 and #2, and then go straight to #11 (Wernicke's commands). Look for booby traps, followed by commands against remembering, and other sabotaging commands, such as commands to keep you on your own or with less money. Test which commands were given deliberately, and which ones you picked up accidentally.

2) If you have read this article, and have purchased my DVD Training "Perfect Health with Kinesiology & Muscle Testing" and are interested in meeting with another person who has done the same, please email me of your wish, your location and your phone number. I cannot promise anything, but if there is another person not too far from you, maybe the two of you can make contact with each other. Of course, I know nothing about either of you and cannot take any responsibility for anything that happens from introducing you to each other. And remember – the spooks are reading this too.

3) Pray to God for guidance and discernment at all times. And pray to God to send you a good person to work with.

Please see Feedback from Metatech readers who have learned "Perfect Health with Kinesiology & Muscle Testing".

Relationship Troubles May be Caused by Commands Inserted into the Brain during Abduction

# Wernickes Mind Control Commands and

# How You Can Remove Them

If you are not doing some kind of Personal Development, you are leaving money on the table. It is well known among the affluent classes that certain practices and techniques remove the "damage" and problems that life causes and allow people to move forward toward happiness and wealth. Celebrities, CEOs and the rich and powerful constantly seek out new ways to give them the advantages and leverage they want in their lives. They understand that the first investment is to invest in themselves and they have never even heard about what you are about to learn.

Mind Control commands stored in the Wernickes area of the brain can sabotage a person's life and ruin their health, relationships, career and ability to create wealth. Self improvement becomes very difficult, if not impossible.

Please let me share with you a way to remove these commands without spending years of your life and hundreds of thousands of dollars doing it.

Who am I? My name is Michael Relfe and I helped produce "<u>The Perfect Health System</u>". My wife Stephanie supplied the talent, healing expertise and the raw determination to create a training system that would allow anyone to learn kinesiology and possess a technology that would help them make fantastic improvements in their life. I supplied the technical support: Audio, Video, Lighting, Editing, etc, etc.

I want to tell you a little about myself and why you need Disk 11 (**The Wernicke's Correction**). I have spent 24 years in the IT industry and have been an employee or consultant for Fortune 50 companies such as AMEX, IBM, American Airlines and The US Navy. I hold a degree in Computer Science and am a graduate of United States Naval Nuclear Power School. I am not sharing these things to attempt to impress you. I want to help you understand that your success in life and the completion of your goals is in your hands and that with kinesiology ... a special kind of kinesiology, you now have the technology to change your situation and get what you want out of life.

I know you have heard it before. **Personal Development**. I know you have read the words, propaganda and horse manure from the big boy millionaires. Promises. Testimonials. Thousands of dollars for seminars from some clown that only cares about stuffing your money into his bank account. Some of these guys get \$5,000 or more for a weekend seminar. Other "Big Boys" can get \$20,000 for a 2 week "workshop". And I have seen the offers from more than one "Guru" that will allow you meet them and join their private club for a cool \$50,000. You get people talking at you, using hypnosis and NLP on you, and all the while trying to "upsell" you on the next big seminar. Does it work? Who knows. At the end of it all you are still "you". The worst thing about all this is that many people who attend these workshops do not make any real changes in their lives. And now they are thousands of dollars in debt.

Well now there is something new and the "big boys" don't have it. And it doesn't cost \$50,000.

It comes free with "The Perfect Health System".

Why do bad things happen to good people? Why do some people seem to get all the breaks and other people are constantly being broken? Why is it that someone else seems to have the best relationships, best career and the most money? And why are other people so happy all the time?

Let me share with you some startling information. Scientists have discovered that the instructions and commands that people receive during their lives can be stored in the Wernicke's area of the brain. And many of these commands can have long term negative effects on those people.

Wernicke's commands could be YOUR worst enemy! Imagine dozens or even hundreds of tiny "computer programs" or "CD records" screaming into your subconscious commands such as "You're no good", "You will always be poor", "You'll always be fat" "You're really stupid" "You'll never make anything of yourself" "You never remember anything" and "You'll never get married".

And they "go online" at the worst times. When you are under stress. Working on projects. Making life changing decisions. And they interfere and cause you to make the wrong decision. Is it any wonder why people are looking for ways to change their lives in areas such as money, relationships and health.

Everyone has at least some wernicke's commands against having money, success and achieving results. As an example, here are thirty commands that were found on one person, in one session:

•"You'll never be rich."

•"You're not rich."

•"You have no money."

•"You never get it right."

•"You don't do it right."

•"You always fail."

•"You're a failure."

•"Don't finish it."

- •"Don't complete that."
- •"You're always last."
- •"Start another one."
- •"You have nothing to do with it."
- •"You're messy."
- •"You shouldn't do it like that."
- •"You should never be involved in that."
- •"Stay away from them."
- •"Don't work on that."
- •"Have nothing to do with them."
- •"Don't talk to them."
- •"Slow down."
- •"Relax."
- •"Just do enough to get by."
- •"You don't need much to live."
- •"Don't have too much money."
- •"Ruin your career."
- •"Your career is not important."
- •"You're not a business man."
- •"Be ordinary."
- •"Don't do too good a job."
- •"Only do what's required."

It can be really tough to accomplish the goals you have set for yourself if your subconscious mind is sabotaging you at every turn. How can you get out of that rut?

How can you escape... from yourself?

Now You Can! You can learn the Wernicke's Correction.

It is one small part of "The Perfect Health System"

The Wernicke's Correction can change your life.

The Wernicke's Correction is a revolutionary new Kinesiology Correction created by Genius Australian Kinesiologist David Bridgman. Utilizing three different healing modalities, he created the world's first kinesiology correction that can eliminate self sabotage commands from a person's brain. *Instantly*.

No courses. No seminars. No credit cards. No upsells. No B.S.

It is possibly the most important kinesiology correction for personal development and life improvement ever discovered.

In "<u>Perfect Health with Kinesiology and Muscle Testing</u>", my wife, Australian Kinesiologist Stephanie Relfe is bringing the Wernicke's Correction outside of Australia and making it available to the world for the very first time.

The Wernicke's Correction is quite simply an instant relationship course in a box.

And an instant cash flow course in a box.

#### And an instant self-improvement course in a box.

By eliminating the self sabotaging commands stored in your brain, you can finally achieve the things in your life that you have been working for.

In "<u>Perfect Health with Kinesiology and Muscle Testing</u>" you will learn the complete procedure for the Wernicke's Correction. Nothing is censored. Nothing is held back. There is no "upsell product". No further courses are necessary for you to learn Kinesiology and the Wernicke's Correction and to start applying it to you and your loved ones or to your healing practice. You really can remove self sabotaging commands and improve your life. This is just one small part of this amazing course.

Please note that this is not meditation, visualization, affirmations, hypnosis, NLP or any other "mind science" type of system. I know some people love such programs because of their high energy delivery and their claims of instantaneous results. But there is a problem with these systems. **They are not removing the underlying cause of the person's difficulties.** They are adding a new "program" on top of the old "program". There is no point in putting jam on top of moldy bread. What is needed is a scientific procedure for removing the underlying cause of the program" you with their latest seminar or audio tape?

Kinesiology is scientific. Chiropractors and Licensed Massage Therapists using Kinesiology put treatments on insurance. And this is the actual hands on, repeatable, meat-and-potatoes kinesiology correction. Some kinesiology corrections are for your body. This kinesiology correction is for your brain. And it is demonstrated completely in "Perfect Health With Kinesiology & Muscle Testing – Disk 11".

And no, it's not available separately. You need to learn Kinesiology from the other disks before you can use it correctly.

But let me warn you. The Wernicke's Correction is easy to learn. It is easy to perform. But for some people that refuse to change and *like* being the way they are, it could be tough for them to actually sit down and take the time to do it. Wernicke's commands are like the layers of an onion. They will not come out all at once.

The Wernicke's Correction will not do everything.

But it can do what no other healing modality in the world can do.

Remove self sabotage commands that are damaging your life.

If you are a practitioner, the Wernicke's Correction is a powerful addition to your arsenal of healing modalities. The Wernicke's Correction will allow you to have even more ways to help your clients and they will have even more reasons to book in with you. And as with everything we teach at Relfe.com, **we do NOT charge royalties**. So if you want to teach classes on Kinesiology, including the Wernickes correction or just use it in your practice and become a "Wernickes Specialist", we encourage you to do so. This is a new technology and you might be the only person in your state providing that service.

So after all these years of trying to find the "missing link" to your success, maybe the Wernicke's correction is it. This is one that the "big boys" don't know about. You will have to invest the few hours it takes to learn kinesiology. Then you will have to invest the time to do the corrections. The results? Everyone is different but I can tell you that with the help of my wife Stephanie, I have had many hundreds of self-sabotaging commands removed from my mind and things get better all the time.

The Wernicke's commands are real. And negative commands are deadly to anyone's Health, Wealth & Happiness. I no longer allow them to control my life.

What will you do?

Sincerely

Michael Relfe

# KINESIOLOGY AND MUSCLE TESTING

# YOUR SECRET WEAPON FOR HEALTH

#### From You're Not Fat, You're Toxic, By Stephanie Relfe

Kinesiology is a brand new technology which helps the brain to 'rewire' the body energetically. It is amazingly efficient at balancing the body, so that it can return to excellent health, energy and emotional strength. Therefore, it is a powerful tool to help you to get thin, provided it is done correctly. It stands apart from any other type of health technology largely due to its revolutionary use of muscle testing.

I have used kinesiology to help many people heal pain, health and emotional problems that they had for years, even decades, within just 2-3 sessions. Not uncommonly, weight loss was a lovely 'side-effect'. If you are taking drugs, which we have seen are fattening, then kinesiology is something I suggest you look into, because getting off the drugs (with your doctor's help) is something that will help with your fat loss. In addition, accurate muscle testing can help to identify the particular foods that your body is allergic to, and giving up those foods can greatly accelerate fat loss.

I will give one example of how kinesiology can create miracles: In the very good book *A Revolutionary Way of Thinking*, Dr. Charles Krebs tells how when he was a fit 35 year old, he had a diving accident, and was told that he would be a quadriplegic for life. But using kinesiology, he now leads a perfectly normal life!

There are two different definitions of "kinesiology". The term "kinesiology" which I use is that which is connected with Specialized Kinesiology and Academic Kinesiology (which includes Applied Kinesiology). It always includes manual muscle testing. It is not to be confused with another definition of "kinesiology", which is that which is taught in some colleges and does not include muscle testing.

When you muscle test a person properly for different foods, the person you test will not be able to hold up their arm when they hold a piece of a food that is toxic for them, beside their cheek, no matter how strong they are. This works also by just saying the name of the food being tested. This is because the brain stops sending electrical signals to the muscle you are testing. No longer is a food "bad" or "fattening". It is now *weakening*. No one wants to be weak. Somehow, this process makes a person just automatically start to steer away from unhealthy and fattening foods, and want to eat more nutritious foods, just like God intended.

As a person gets more and more specific communication back from their body through kinesiology sessions, they often begin to take more and more responsibility for their own health. Plus they have more knowledge of how to do that. When a big, tough guy sees that a puny girl can easily push his arm down when he says "alcohol" or "sugar", he often begins to think seriously about giving them up. Many people don't feel like giving up harmful habits because someone else has told them that they should, but when their own body starts telling them in no uncertain terms that those habits are weakening it, then that is another matter.

However, kinesiology goes beyond muscle testing. It also includes corrections which balance the body energetically so that different systems can work more efficiently. The brain allows you to become aware of energetic imbalances and blockages. It then rectifies these. It is not uncommon for people to notice an immediate absence of pain in the troubled area during a session. Within a few days many other symptoms often go away as well. Even better, the symptoms often stay away, provided the person no longer does the thing that caused the problem in the first place. This can be a great help for fat loss.

When we are tired, hurting or feeling negative emotions, it can be more tempting to eat something that is toxic. Kinesiology can help a person to improve all of these symptoms. Even better, it helps to balance the body's energies so that the body can work more efficiently. For example, if there is a blockage in the large intestine energies, the person might become constipated. This causes a back log of toxins, and makes it much harder for the body to burn fat. I have not seen a client who was constipated who I have not been able to help using kinesiology, combined with improvements in diet.

Muscle testing the Anterior deltoid muscle from "Perfect Health with Kinesiology and Muscle Testing"

If you are the kind of person who has "tried everything" including all kinds of doctors and natural healers for a particular problem, including fat loss, then you are typical of the kind of clients who I have seen, and been able to help with kinesiology.

Kinesiology is a truly 'wholistic' system, because it looks at the *whole* person (not just at selected parts). When you step on a cat's tail, it's the other end that screams. That is, the whole body affects the whole body.

In addition, kinesiology looks at *all* types of stresses which can cause disease. They include emotional, nutritional, structural and electrical stress.

The basis of kinesiology is that the body is like an electrical piece of equipment, which is controlled by an incredibly complex computer, namely the brain. The brain is continually in communication with each of the approximately 639 muscles in the body, and it knows exactly what it needs and in what priority.

#### FOURTEEN MUSCLE BALANCE

There are many kinesiology balances which can help you to reduce fat. For example, there is a balance called the Fourteen muscle balance. This balance is based on Chinese medicine. Each of the fourteen muscles that are muscle tested, relate to a particular organ or system in the body. For example, if a person has their Quadriceps muscles out of balance, not only may they find that they have difficulty climbing stairs, because this is a major muscle in the upper leg, but the small intestine will also be out of balance, because it is energetically connected to the small intestine.

#### THE BODY CLOCK

The Fourteen muscle balance is based on the body clock. We have all talked about how our "body clock" gets messed up when we travel long distances by air. What not so many people know is that ancient Chinese mapped this clock. It includes the energy flows in the main meridian systems during a 24 hour time period.

Central Nervous System	Governing (Spinal Cord)
Heart	Gall Bladder
Small Intestine	Liver
Bladder	Lung
Kidney	Large Intestine
Circulation Sex	Stomach
Triple Warmer (hormones)	Spleen

#### **MERIDIANS – PATHWAYS OF ENERGY**

Energy flows continuously around the body in an unbroken flow like a river, on invisible pathways called meridians. These meridians form the meridian system. The meridian system is the basis for acupuncture.

# HEAD MERIDIAN RELATIONSHIPS

*The Head Meridian Relationships, from "Perfect Health with Kinesiology and Muscle Testing"* 

Each meridian is associated with a particular organ or system of the body. Each item on the body clock is associated with a particular meridian in the body. For example, the central nervous system, in the middle of the wheel, is associated with the supraspinatus muscle.

At particular times of the day, more energy flows to one meridian, and hence to one organ, than at any other time of the day. If you look at the wheel you will see that at 1 to 3 pm, the small intestine meridian receives more energy than any other meridian. Then at 3 to 5 pm, the bladder meridian receives more energy than any other meridian. Then at 5 to 7 pm, the kidney meridian receives more energy than any other meridian. And so on around the clock until you come again back to the small intestine meridian.

Look again at the body clock. Notice how different lines go to different organs? When an organ receives maximum energy, the organ that is opposite that organ on the wheel receives minimum energy. For example, 11 am to 1 pm, most energy goes to the heart. At the same time, the least amount of energy goes to the one opposite the heart, which is the gall bladder.

Note that at 1 to 3 pm most energy goes to the small intestine. Also, at this time the least amount of energy goes to the liver, because the liver is directly opposite the small intestine on the clock. This is why people get more drunk from alcohol at lunchtime, than at any other time of the day. At this time of day, the liver has less energy available, and the liver is the organ that has to detoxify the alcohol. Another interesting correlation is the time when most heart attacks tend to occur, which is in the middle of the night, when the heart energy is at its lowest.

In the middle of the circle are central and governing. Central is short for the central nervous system and governing is the nervous system related to the spinal cord.

#### THE CLOACALS

If you are one of those people for whom "nothing works" for your health problems, and you are also extra low in energy, then it's quite possible that an energy system called the "cloacals" is out of balance. This is the most powerful kinesiology correction of all, and one that can cause miracles. The cloacals is an energy system that is related to the autonomic nervous system, which controls many actions of the human body. This control happens without the person having to think about it, such as heart rate and digestion. The cloacals is part of Applied Kinesiology. It is unknown by the medical system, and even by most kinesiologists.

If anyone has ever had a time when they were healthy, and then *almost overnight* started having all kinds of awful symptoms, including weight gain, it is quite likely that one of two things happened:

1. They picked up a parasite. Particularly suspect this if the person travelled to a foreign country. Please see the chapter on parasites for more information.

2. Their cloacals went out of balance as a result of extreme stress. The stress could have been:

Emotional, such as divorce or death of a loved one.

Physical, such as a car crash or difficult birth.

Chemical, from something extremely toxic to the body, such as a vaccination.

Electrical, such as an electric blanket or eating microwaved food.

Unlike most energy systems in the body, the cloacals do not seem to be good at getting back to balance by itself with a good night's sleep. I have had clients whom muscle testing indicated that they had their cloacals out of balance since they were born, often because of a difficult birth.

The cloacals are part of what kinesiologists call the centering system. The test to see if the centering system is in balance is simple. As always, the tester must do the six pretests first to make sure that all muscle tests are valid. (There are many people who think that they know how to muscle test, but since they don't do the pretests, their results are invalid). The tester then warns the person of what they are about to do. The tester then gives the person a light slap on an upper arm, and then muscle tests the other arm. If the arm tests weak, that means that the simple slap was more stress than their body could handle and the centering system is out of balance. Once the appropriate Kinesiology correction is applied to the body, and the test is repeated, the arm will stay strong when the body is given another light slap.

Anyone who has "incurable" health problems and very low energy, as well as fat that refuses to budge, quite possibly has their cloacals out of balance. Rebalancing the cloacal system can help to heal and to reduce fat, because the cloacal system controls and regulates most, if not all, of the major fluctuating qualities and quantities in the body. The cloacals seem to work by acting as a reference point for the autonomic nervous system, which has the main job of maintaining stability within your body. Therefore, with the cloacals out of balance, a person will be continually out of balance. Their body is like a 'leaf in the wind', affected greatly by even the smallest stresses, and not able to completely heal itself fully, even with good food and sleep.

In addition, the person may be operating on a shocking 30 - 70 % of normal body energy levels. In this case, there is little energy available for any needed healing or fat reduction, and a person can feel so lousy that foods like ice cream become a lot more attractive.

For example, if the cloacals are not working properly, a few of the things that may not be as efficient as possible are the following:

Body fat. Hormone levels. Metabolism. Blood sugar levels. Body energy levels. Emotional stability. Allergic responses. Bladder. Bowels. Reproductive organs. Pregnancy. Sexuality. Blood pressure. Body temperature. Speed of healing. Immune efficiency. Brain chemistry. Learning abilities. Co-ordination.

The good news is that a good kinesiologist can put the cloacal system back into balance. People sometimes notice an immediate improvement in their symptoms. In cases where people feel worse for a few days after having their cloacals back in balance, it is a symptom of the body using the extra energy available to it to heal some major problems, which previously the body did not have the energy to do.

You can learn this yourself, because I teach the cloacals correction in my DVD training system, *Perfect Health with Kinesiology & Muscle Testing*. I also teach that to get a *permanent* healing you may need to do more than just put the cloacals back in balance. If the cloacals do not stay in balance during the weeks after rebalancing them, as they should, then the kinesiologist needs to use muscle testing to locate the cause of why the cloacals would not stay in balance.

I have found that the cause can be many different causes, all of them extremely stressful to the body. Some causes have been major emotional shock like death of a loved one, or divorce of parents, a car crash, having something terrible happen in childhood, being born by "western" birthing methods, having a baby – or even what would appear to be not too stressful, but obviously is from how it puts the cloacals out of balance - being vaccinated, using an electric blanket or eating microwaved food.

Once you get the cloacals to be in balance, and to remain in balance, you may get a surprise at the list of symptoms which is improved if not fully healed. I used to cry much too very easily before I found kinesiology, and it was all because my cloacals were out of balance. Now I cry only for beautiful things. It's also likely that this is one of the reasons why I used to eat huge amounts of food, and now do not eat nearly as much, at the same time that I no longer experience constant hunger.

The cloacals correction is explained in the *Basic Applied Kinesiology Workshop Manual* by Gordon Stokes and Mary Marks, which is unfortunately currently not available. A very strange thing is that, while the cloacals is the most important Applied Kinesiology correction of all, it is not described in the *Applied Kinesiology Synopsis* by Walther. However, I teach this correction in my DVD training system *Perfect Health with Kinesiology & Muscle Testing*.

Unfortunately, you cannot do kinesiology on yourself, because a broken computer cannot fix itself. Your brain is the computer. You need to have someone else work on you. Because it can be difficult finding a good kinesiologist to work on you, my husband and I spent four years creating *Perfect Health with Kinesiology and Muscle Testing*, which is designed for ordinary people to learn, not just professional natural health practitioners, so that they could improve their health. More information is available at www.PerfectHealthSystem.com and www.PerfectHealthDVD.com as well as www.Relfe.com.

As a wife and mother, I do not know how other people manage to raise a healthy, happy, thin family without the tools that kinesiology provides, and that I teach in my DVDs. If you want to reduce your fat, and 'nothing works', then I highly recommend that you learn kinesiology with someone close to you, so that you can work on each other, or find a good kinesiologist to work on you. Kinesiology really can be your "Secret Weapon" for health.

BONUS – After completion of the *Perfect Health with Kinesiology and Muscle Testing* program, all students that the pass the certification exam are awarded a certificate suitable for display in their office. **In addition, they receive permission to use the course to teach others in their area without the payment of royalties.**

### How Your Metaphysical Abilities are Being Suppressed

by Stephanie Relfe B.Sc. (Sydney)

#### Note: If you are abducted then you are Psychic

## **THE METAGENE FACTOR:** Quote from <u>"Blue Planet Project"</u>- a notebook made by a scientist who worked with Greys and Reptilians for the government:

The Metagene is a biological variant lying dormant in select members of the human race [especially on planet earth], until an instant of extraordinary physical and emotional over-stress activates it. (Apparently a latent self-preservation 'gene' capable of producing seemingly 'superhuman' abilities in earth humans during times of extreme stress or crisis. – Branton) ...

That's an energochemical, in response to adverse stimuli. A chromosomal combustion takes place, as the Metagene takes the source of biostress, be it chemical, radioactivity, or what ever and turns the potential energoresponse into a catalyst for genetic change. The main focus of the catalyst power is a gland in the middle of the human brain called the PINEAL gland, and the nutrient for increasing the Pineal's action is the adrenaline. The Metagene factor gives the ability of Psionic Power [for better or worse].

The main interest of the Aliens, especially the Grays, is to understand and control the Metagene for their own race. They try to do this using Biological Experiments to make Hybrids from both humans and aliens. They believe perhaps the **MEN FROM PLANET EARTH ARE THE DEADLIEST CREATURES IN THE UNIVERSE.** Because ONLY on Earth people are apparently capable of generating the Metagene Factor, which means Natural Psionics ability, "Real Power" (See <u>www.TheMarsRecords.com</u>)

Many writers and people have said that we as a human species are far, far, far more powerful than we know.

Yah'Shua (the real name for Jesus Christ) said "Verily, verily, I say unto you, he that believeth on me, the works that I do shall he do also, and greater works than these shall he do, because I go unto my Father." John 14:12. Well, we are obviously a LONG way from doing what Jesus did, let alone outperforming him.

I believe that metaphysical abilities, such as telepathy, are gifts that were given to us by God Yahweh, that have been largely taken away from us by evil ones. I am talking here about true spiritual abilities such as telepathy, as distinct from magick & psychic abilities which is done by occult means and is actually done by the power of demons (see <u>www.exvampire.com</u> for confirmation of this).

For example, animals and young children often display telepathic powers. (One example: See the report by the U.S. Air Force of a group of chinese children who can teleport). Yet the abilities of children are generally lost or greatly reduced by the time they 'grow up'.

I believe this is because there is a concerted plan by species that do not own the metaphysical abilities that Yahweh gave to us, to enslave the human species and make sure we never access the powers that we have. We are like an eagle in a cage that has never been taught or shown how we can fly and soar over the skies.

A few metaphysical abilities are:

- Telepathy receiving
- Telepathy projectional
- Telekinesis
- Teleport self
- Teleport other things
- Teleport live objects
- Open portals that people can walk through, to other times and places
- To go to other universes
- Travel places others cannot
- Clairvoyancy
- Clairaudient
- Healing
- Empathy
- Explode things
- Kill people with mind
- Create fire at a distance
- Change the quantum matrix
- Change matter
- Manifest physical objects
- And whatever else you can dream up anything is possible.

Below I have listed just a few of the ways that human metaphysical abilities have been suppressed, and give some suggestions as to ways to overcome these. I believe that the first three listings are the most important. The rest are in no particular order of importance.

Method of Reducing Metaphysical Abilities	How This Method Robs us of Our Metaphysical Abilities	Possible Ways To Combat This
Abduction	It is the belief of myself and my husband Michael, from our own experience, that almost anyone who has advanced metaphysical abilities will have been abducted at least once and probably a number of times throughout their lives. This may have been done by non-humans such as greys, reptilians, insectoids or other aliens, or by humans who are in black operations in the military. (If you think this is not for real, then you haven't done enough research on this matter. There is literally tons of information on this. Start with our <u>weblinks</u> section). During this abduction the person was given programming and possibly other things including operations to stop them from harnessing the full power of	<ol> <li>Stop abductions now by <u>changing the quantum matrix</u> inside yourself and your family at least twice a week. Fluoride	Fluoride is a rat poison that is rated 4 out of 5 on the list of world poisons. It was also used by the Nazis and Russians. They fluoridated any water because it calms people down and makes them easier to control.	1) Of course the best thing is to not use toothpaste that contains fluoride (available only from health food stores) and to drink only reverse osmosis water or springwater. For reverse osmosis filters, check out Sam's Club (USA) and ebay.
	I have also read reports that it calcifies the pineal gland, the third eye, which is partly where our metaphysical abilities come from.	2) To get rid of fluoride that you already have, or get through your skin when showering, there are reports that turmeric can help get rid of the calcification of the pineal gland. Eat more lentil curries with turmeric!

Eating Meat	Uri Geller, perhaps the most famous psychic in the world, is a vegetarian.	Eat more whole grains, fruit and vegetables, especially raw fruit and vegetables.
	The higher frequency your body resonates at, the more metaphysical abilities you will have.	Eat foods with more protein but don't get hung up on the need for tons of protein. Gorillas are 100% vegetarian and they obviously don't have any problem growing
	Dead flesh is a very low frequency. Plants are much higher. Think about this, if	large muscles!!! To become vegetarian, don't eat a

	empathic abilities – the ability to feel the emotions of others. Eventually you may feel the pain that the cow felt when it had it's throat cut, as well as the terror it experienced before that event.	Instead, learn from Indians. In India, the highest cast is the Brahmins and they are all 100% vegetarian. Eat a lot of lentils (for protein) as well as brown rice.
	Plants don't like dying either but they don't have the highly evolved nervous system and intelligence of animals.	
Schooling System	Our schooling system is very much logical and rational. It develops mainly the left brain without developing the right brain.	Do whatever it takes to do homeschooling. Virtually anyone can do it, so long as you buy curriculums.
	This teaches us to <b>think</b> which has its usefulness. However, it does not teach us to <b>know</b> , to access our intuition.	See " <u>55 Serious Reasons why</u> <u>You Should Homeschool</u> "
	Knowing is much more powerful and faster than thinking. Knowing comes from our right brain and our intuition.	
	In addition, the time that children attend school and the way they have to sit still for many hours at a time is mind control. A German discovered that children who	

	are taught to go to school five days a week are later trained to be good 9-5, Monday to Friday workers. Wouldn't you rather your children were taught to be healthy, happy, spiritual millionaires whose purpose in life is to improve the life of others rather than have a job to make a living?	
Preventing Meditative States	Some people, in particular some Christians, believe that meditation is bad, because they think once that they empty their mind it will be filled with bad things. This is not correct. Meditation is not emptying your mind. It is impossible to empty your mind. Meditation is stilling your mind. It has been said that prayer is talking to God, while meditation is listening to God. If your mind is full of thoughts, how can you hear God speak to you? "to be carnally minded is death; but to be spiritually minded is life and peace." Romans 8:6 (Note: Carnally means relating to physical things, especially the body)	<ul> <li>Stick with forms of meditation that still your mind rather than chant a mantra.</li> <li>You could just sit still and close your eyes and focus on your breath and/or on God.</li> <li>Also focus on feeling God and love in your heart: <ul> <li><i>"God is a Spirit"</i> John 4:24.</li> <li><i>"Behold, the kingdom of God is within you."</i> Luke 17:21</li> </ul> </li> </ul>

	Once you have stilled your mind you can more easily access your metaphysical abilities. While your mind is filled with rubbish thoughts that go round and round and round, you cannot access your metaphysical abilities. However, not all forms of meditation are recommended. Meditation techniques where one chants a mantra may be bad because the mantra could be the name of a demon.	
Western Birth	Although they don't remember it, most people were put into incredible trauma through the process of their birth. After a traumatic birth, possibly with drugs that made it worse, many babies were slapped, put into bright lights, put into noisy areas, and worst of all, taken away from their mother and not given breast milk. This put those people into shock, which is one reason why we don't remember much of those early years. Shock and trauma inhibit all types of growth, especially metaphysical abilities. Even worse, some people don't get to keep their own baby if they have a hospital birth, in particular, a military hospital. There are reports of babies being swapped or the mother being told that it was a	Return to natural home birthing, preferably a <u>water birth</u> , which enables the woman to squat which makes more room for the baby. Add soft lights and as few people who are loving and caring present as possible.

Drugs/either pharmaceutical or recreational. INCLUDING White Powder Gold.	still birth but not shown the baby. In addition, many men had an additional shock of being sexually mutilated – circumsized – often even without pain killers. Is that why little boys cry more than girls? If you have a boy, let him decide when he is old enough whether or not he wants to be circumcized. For more information on how different birthing and child raising methods can increase normal and metaphysical abilities, read the amazing book <u>Magical Child</u> (Just ignore what he says about reading age – teaching reading early does not decrease metaphysical abilities). What goes up due to chemical means, must come down – PLUS side effects. White powder gold actually DESTROYS your <u>native</u> metaphysical abilities.	If you have drug addictions, Ibogaine, which has been reported to heal people of all drug addictions within 24 hours with no side effects with a 70% success rate. Note: I understand that this drug
Television	It has been shown that when	is currently not legal in Belgium or America.
Television	It has been shown that when watching television you are in an hypnotic state within one minute. Once you are in a hypnotic state you cannot access your metaphysical abilities. In addition you will be resonating at the same frequency as a lot of zombies watching television. Plus there is all kinds of technological and spiritual encryption added to some TV and movies these days.	Watch the movie "The Matrix" at least two or three times until you understand the message of this movie. Put your television in the garage for three months and see what difference it makes to your life. Cancel your cable bill.

No / Insufficient Breast Milk	Breast milk contains substances which are essential for optimal brain growth. That's for normal intelligence.	Do whatever it takes to breast feed your children for 4 to 7 years old. If it's too late for you, spread the word so the next generation knows this.
	<u>Muscle testing</u> has indicated to me that there are one or more substances in human breast milk which help metaphysical abilities. Muscle testing also indicated to me that production of this	
	substance peaks at 18 months and ends at three years.	
	Research of large primates show us that humans, who are also large primates, should breast feed their babies until <u>four to seven years old</u> . Note that this is not talking about public nursing. By three years of age, babies probably only want one nurse a day, and that will be to put them to sleep (without crying).	
	The powers that be that are controlled by the alien/reptilian species have seen that breast milk gets replaced by formula which has many toxic substances in it, including soy. Formula definitely doesn't have the range of substances which are needed.	
	In addition I believe that while the baby is breast feeding the baby is soaking up the mother's energy from her heart chakra, which also helps to develop metaphysical abilities.	
Mother not Sleeping with Babies and Young Children	Dr William Sears ( <u>The Baby</u> <u>Book</u> ) found that mothers with the most advanced babies slept with them. Most cultures sleep with their babies. We used to. Babies and children	Keep babies and young children in your bed. Take the legs off the bed for a few years. You yourself will get a LOT more sleep this way!!!

	up to at least 7 years old NEED their mother. Nature designed them that way.	Metaphysical abilities grow with love, love, love.
	That is why they cry when not with their mother, especially at night time. How do they know that something is not going to come and eat them if mother is not around? If you were on a desert island, would you put your baby to sleep at one end of the beach while you slept at the other? Of course not. It's no different at home.	
	Not sleeping with children traumatizes them <i>every night</i> .	
	I met one man who could remember at two years old being terriifed every night because he had to sleep on his own. He wondered why he couldn't sleep with his parents. No wonder so many children don't want to go to bed.	
	Anything that traumatizes you, affects your metaphysical abilities.	
Aspartame, Monosodium Glutamate and other <u>excitotoxins</u> .	These toxins scramble your brain, just like drugs. Anything that scrambles your brain will suppress your metaphysical abilities.	When you want to sweeten anything, use raw honey. That is, something that is as close as possible to what nature produced, without processing.
Cellular Telephones	Cell phones <u>shrink brain cells</u> . Whatever hurts your brain, hurts your metaphysical abilities.	Use only a landline and get an answering machine. It's really not that difficult!!!! NEVER let children use a cellphone.
		Be aware that some people have suggested that there may be something addictive about cellphones if you feel it's hard to give up.

Microwave	Eating microwaved foods for	Throw out your microwave or put

	your white blood cells and affects your immune system.	When eating out ask if any of the food you are ordering is microwaved, as it very often is
	Anything that decreases your health decreases your metaphysical abilities.	(even when the menu says "steamed vegetables".)
Electric blankets	Every time we get away from nature and get closer to technology we decrease our metaphysical abilities. Electric blankets put your body under major stress.	Never use one. When travelling, take it off the hotel bed – it can affect you even when not plugged in, because of the coils of metal.
	Other major electromagnetic stresses are <u>listed here</u> .	
Rock & Rap "Music"	Rock and rap 'music'change brain wave patterns. They stop you from accessing your higher powers.	If you can find music that vibrates at a high frequency, that is performed by people who operate at high frequency, listen to that instead.
		Silence is golden to listen to.
Negative people	We become like the people we spend time with. We pick up their vibrations unconsciously. For example, see how people pick up accents when they visit a different area.	will probably have to let go of some of the people you spend time with now. It is better to be on your own than with people who pull you down or who anchor you to the material universe.I personally find that my metaphysical abilities take a quantum leap whenever I am with other people who also have and ACKNOWLEDGE THE EXISTENCE of metaphysical abilities.
Lack of Practice	Use it or lose it.	Find a way to practice the particular abilities you are interested in, even if for only a few minutes a day.
		eg Try this <u>telepathy course</u> .

Anger	The reptilians in particular will focus on increasing your rage and anger, because your metaphysical abilities definitely go down with rage and anger.	Would you rather be right or would you rather have peace? Focus on forgiveness. Focus on feeling love radiate in your heart.
Toxins Deliberately Added to the Food Supply	Many toxins include GMOs which contain bacterial DNA which produces poison, wheat that has been altered from the original einkorn by the Rockefellers and excitoxins such as MSG & Aspartame have been deliberately added to the food supply to destroy our bodies, our brains and our metaphysical abilities.	This is a very big subject which cannot be handled in one article. I spent 2 years writing " <u>You're not</u> <u>Fat, You're Toxic</u> " to show how and why you should give up these toxins, and what to replace them with. It's much more than an excellent weight loss manual. Please get a copy or ask your library to buy one, and extend your life by decades.

#### This Book is a MUST READ

This is an excellent book, well researched and well written. This book has inspired me to make the necessary changes in the way I take care of my body so that I can enjoy an optimal life. I have read the book from cover to cover, did not want to miss one word, section nor chapter. I agree with Stephanie Relfe when she said "Your health is your wealth". I would like to thank her for researching and placing all this vital information in one book. What makes this book so interesting is the wealth of information it contains and how it explains the serious consequences of the toxins we put in our bodies and how they can affect our physical, mental and spiritual being. The book offers great alternatives such as how to cleanse our bodies, what to eat; this includes a very detail shopping list and recipes; the right supplements and exercises that are very effective. It has been two weeks since I have applied the healthy recommendations of this book to my daily routine and already I have seen significant changes. I am eight pounds lighter and look forward to achieving my goal of losing 30 pounds.

I highly recommend this book to anyone who not only wants to be THIN but also wants to experience a HEALTHY, PAIN-FREE LIFE.

1) Very easy to read. In fact it is very engaging. When I have ten minutes to sit and read I can open this book anywhere and get absorbed into the content. Many times I have a problem putting it down.

2) Puts together a lot of material that I have read in diverse places. I am an alternative health care professional and I read or hear bits and pieces of great information from many different sources. This book put many of those pieces together in one place.

3) She covers the corporate and government political agenda....does anyone still believe that the FDA or CDC or mainstream media is telling us the truth about health issues? If you do, this book will nudge you to wake up and take charge of your health.

4) The suggestions she makes are all easily doable and will give you immediate and long-term results. I have used a number of health tips, such as reduce gluten, get GMO's out my diet, and cleanses, over the years and I have experienced dramatic and positive shifts in my health. She has put in a number of those tips. She has quite a few more that I am going to add to my lifestyle. Even if you do just one change in your diet, you will notice a difference. In fact, I recommend that you chose a couple of changes and make them a part of your lifestyle.....then chose a couple more....and before you know it, you will actually feel and look good.

#### Stephanie has done her homework

#### Christina Talkington

I am an alternative wellness provider, as well as a health and weight loss coach. I have spent the last several years doing a lot of my own, independent research on healthy eating and weight loss. Off the top of my head, I can't think of a single thing that Stephanie left out of her book; in fact, she included a lot of great information I hadn't heard before!

She even talks about the critical and little-recognized mental and emotional factors that doctors never discuss with their obese patients. And Stephanie doesn't just explain what you should do, but also WHY you should do it, increasing your level of understanding and, therefore, your chances of success.

... It should be required reading for every high school student!

#### Preface by Stephanie Relfe

In 2001 a woman in her early 50s named Pat contacted me after she read "The Mars Records" (<u>www.themarsrecords.com</u>) and decided to have clearing and kinesiology sessions. She lived quite a distance from where I was, but eventually she was able to make the journey and spent a week undergoing sessions with me.

Pat had been involved in the research and investigation of UFOs from 1978 to 1987, but she was not consciously involved with that activity at the time she saw me. She came to me mainly because she had experienced a great deal of trouble completing projects: sometimes she would just lie on her bed and **stare at the ceiling**, unable to do anything, for hours at a time!

When she read the Mars Records, she suspected that mental blocks and "Wernicke's commands"<sup>1</sup> were at the core of her problem and felt that I could help her remove them. She also had frequent flashback memories of violent incidents where she was struggling against restraints and vague scenes of fighting people that were trying to harm her. Pat also had missing time episodes during the years she was a UFO investigator. She also wanted to improve her memory.

When she came on the first night I found that she also wanted to end what are termed "negative hallucinations". These are NOT hallucinations. This term means that she sometimes could not see things that were present – for example, a person sitting opposite her. She was not sure how often they happened, but thought that it could be every couple of months.

During the sessions, I also discovered that she periodically went into a trance for several minutes, where she could hear and see everything but could not move a muscle or speak. She did this three times in my presence, the first when I was driving her back to her hotel. It was quite an eerie feeling to be with someone who had to all appearances turned into a living statue. Several months after the sessions, Pat reported that these trance states had decreased in frequency so much that she rarely experienced them anymore. She also reported that she was more motivated and able to get projects completed. In fact, her physical energy and mental focus had significantly improved.

<sup>&</sup>lt;sup>1</sup> Wernicke's Commands. The right wernicke's area of our brain stores negative commands that are said to us by people that we consciously or unconsciously look up to as people in authority. It has also been found that these commands are sometimes put in forcefully by member of the secret government, aliens etc. especially when people are abducted. For more information, refer to the Mars Records Book one.

In addition, Pat said that there were times when she "could swear she was dying or having a heart attack". Later in the sessions I also found that she had had strong mental impressions that she had killed people. This was surprising as Pat is a happy, kind, intelligent, ladylike woman. Since that memory did not fit into her present life, she had wondered if she had lived another time line.

When Pat came to see me she stayed in a motel a few miles from our home. I felt very strongly that she was going to need a portable door lock when she got here, so we gave her one when she arrived. (It is highly recommended that anyone who suspects that they are being interfered with by the secret government use one of these every night, especially when traveling. We have found that their agents are able to open all the locks and chains that are on doors, but the portable door lock keeps them from physically walking in the door).

"The Mars Force" refers to others besides Michael Relfe (the man described in "The Mars Records") who discover, through undergoing clearing sessions, that they have been transported to Mars and used as psychic soldiers.

#### **Definitions of Healing Therapies Used**

- **Deliverance** : The process of the removing or the "casting out" of demonic entities using the power and authority of the Lord Jesus Christ, as Jesus did in the bible. For more information please see the information, books and audio tapes available at www.hbcdelivers.org
- **Clearing :** A technology for finding truth<sup>i</sup> by using a biofeedback meter. It works with a person's mind and spirit while he is conscious. Clearing removes negative emotional charge and subconscious sabotage. It increases a person's abilities and awareness.
- **Kinesiology:** A technology which improves a person's health and wellbeing by working on the body's electrical systems. It is different from all other technologies in its use of muscle testing. Muscle testing enables a kinesiologist to communicate directly with the body's brain, which is like a super-powerful computer.

We believe from personal experience and from researching the work of others (such as Bill Schnoebelen and Fritz Springmeier) that the mind control technologies used in these government programs are **demonically** inspired and contain physical, metaphysical and spiritual components. Each component must be dealt with individually, using the three technologies of deliverance, clearing and kinesiology.

## Without the help of GOD, it is highly doubtful that any person can be freed of these mind control effects, so constant prayer is a must.

If the mind control victim cannot bring themselves to call on God or the Lord Jesus Christ for help, ultimately they will find limited freedom using the other technologies. They will get a great deal of help from clearing and kinesiology but will only be able to proceed so far. Only deliverance will remove demonic entities. Technology and procedures will not. Deliverance clears the way for everything else. More detailed information concerning the deliverance ministry is provided in Appendix VI.

When reading these records, please take special note of the format of the sessions as well as the explanations of the technologies. With "The Mars Records" (<u>www.themarsrecords.com</u>) these records are unique in the field of alternative science (UFO, Paranormal Research, New World Order Expose, Government Coverup, etc) in that they contain the actual readings from the clearing biofeedback meter.

This biofeedback meter "truth detector" cannot be fooled. The contents of this book are not opinions or speculation. In addition hypnosis was never used in any form.

## These sessions are compelling evidence that the effects of mind control can be reversed, and that those that use mind control can be defeated.

#### **Clearing**

Clearing is a method of discovering truth.<sup>i</sup> It is vastly more efficient than other technologies for finding hidden truth because of its use of the following:

#### A) The Clearing Biofeedback Meter

The Clearing Biofeedback Meter is a simple Wheatstone Bridge<sup>2</sup> which measures the resistance of the body as influenced by the electric field around it. It is fairly simple electronically. However, it is what is done with it in the hands of an experienced Clearing Practitioner that gives it its power.

To some people the Clearing Biofeedback Meter looks like a lie-detector. But it is in fact a 'truth detector'. It is many, many times more efficient and reliable than a lie-detector. As you will learn, the needle on a biofeedback meter gives a wealth of information. It does not react to the amount of sweat on the hands of the person as some seem to think. The Clearing Biofeedback Meter compares to existing devices as the electron microscope compares to looking through a magnifying glass.

When a person (the 'client') contacts a memory with negative charge<sup>3</sup>, the electric field around his body is affected and causes a reaction (a 'read') on the meter's needle. The meter gives certain reads when the truth is being said. If a person makes up a story, or tells a false story which he believes to be true, the needle on the meter will read differently from when the person is telling the truth.

<sup>&</sup>lt;sup>2</sup> Wheatstone Bridge: An instrument or circuit consisting of four resistors, or their equivalent, connected in a loop, with a galvanometer\* linking the junction between one pair and the other. Used to determine the value of an unknown resistance when the other three resistances are known. (\*A galvanometer is a device for detecting or measuring small electric currents by means of mechanical effects produced by the current to be measured).

<sup>&</sup>lt;sup>3</sup> Charge: Charge is a mental energy phenomenon felt by anyone who experiences something unpleasant, dangerous or lethal. Charge is manifested by negative emotions such as anger, fear, grief, apathy or death wishes.

#### **B)** Acknowledgements.

An acknowledgment is a word or words that lets the client know that what they have said has been UNDERSTOOD and that THE COMMUNICATION IS NOW COMPLETE. It puts a "full stop" on what has been said.

'Thank you' is a common acknowledgement. Other acknowledgements could be 'I understand', 'well done', 'I get it', 'great'. It is not WHAT you say so much as HOW you say it.

This is an extremely powerful technique. It enables a person to finally drop what they have been carrying. They can then see the next 'layer of the onion' underneath.

Charge is a mental energy phenomenon felt by anyone who experiences something unpleasant, dangerous or lethal. Charge is manifested by negative emotions such as anger, fear, grief, apathy or death wishes.

Acknowledgments help to take emotional charge off a person. This gives them the strength to face the truth. Also, once a story has finally been told, acknowledgments enable the client to finally put the past behind them and begin to change their life.

Acknowledgments also help to give a client certainty. If a person has memories, and they are sufficiently acknowledged, eventually they will come to realise the truth about their memories. They will realise that either (1) they really are true or (2) they are false – and they will realise then what really happened.

A Clearing Practitioner answers EVERY question with an acknowledgement. And gives an acknowledgement every time the client does what they are commanded to do.

Traditional psychology, however, never uses acknowledgements. Instead, the psychologist answers each answer with ANOTHER question. The client is left with hundreds of open loops. This keeps him stuck with his problems – and keeps him coming back to the psychologist, as he hopes to finally get a "full stop" to his answers.

In these records, acknowledgements are not recorded. One merely assumes that an acknowledgement was made for every answer from Pat, or for anytime that Pat did as I told her to do.
#### C) The client is fully conscious throughout the session.

There is no hypnosis<sup>v</sup>, or induced trances involved. A client is free to leave the session whenever she wishes. The success of the session depends on her full conscious support.

Personality change and improvement are not simply brought about by the practitioner acknowledging the client, but also by the CLIENT acknowledging whatever it was that she found in the depth of her mind.

#### More on the Biofeedback Meter

A battery inside the meter sends a very low voltage current (9 volts) through a wire which is attached to ordinary tin cans which the client holds in her hands. The current interacts with the body's electro-magnetic fields. Only two volts actually arrive at the client.

A gross simplification of how the meter works is that the meter measures the resistance of the body as it is influenced by the electromagnetic field around it. It does not react to the amount of sweat on the hands of the client (as some may think).

When a person locates a memory with charge on it, the electric field around his body is affected and causes a reaction which registers as an INSTANTANEOUS needle movement on the meter. The more painful the memory, the more resistance there will be to the client remembering what happened – and the more resistance there will be, which will show up on the meter.

The meter measures **one level below consciousness** (i.e. on a pre-cognitive level). When working with a skilled Clearing Practitioner, a client can locate a particular event, the nature of that event, the location of that event in space and time and the amount of force contained within it – and the meter gives feedback.

A person can recall ANYTHING, no matter how deep. However, it can be easier to remember memories with **charge**.  $^{\vee}$ 

Volney Mathieson presented his ideas about a biofeedback meter to Ron Hubbard, the inventor of Dianetics in 1952. A version of the meter known as the E-Meter (Electro-psycho Meter) was later put into widespread use in Scientology and Dianetics.

The modern Clearing Biofeedback Meter is designed to measure mental state and changes of mental state accurately and quickly. It is a modern version of what is known to psychologists as the psycho-galvonometer.

Reading a biofeedback meter properly takes extensive training and experience. To start with, the Clearing Practitioner should have received a minimum of 40 hours of clearing themselves, before giving it to others.

The Clearing Practitioner must also be trained in the ability to stay 'Present', no matter what the client says or does. To "Be Present" means to "Be here, Be now, Do nothing". Have you ever talked with someone and you knew that while they were physically present, part of their mind and spirit was elsewhere? Or in another time? Many people are not present for at least some of the time. They particularly tend to not be present when they hear things which they don't like

hearing – either because the things being discussed are too unpleasant, or are outside the person's reality<sup>4</sup>. It is crucial for a successful clearing session that the Clearing Practitioner be 100% present at ALL times.

To the beginner the needle seems like a madly wiggling wild thing. But to the expert each needle motion allows exact conclusions regarding the client's attention. The meter does not tell the practitioner what picture the client sees. But it does tell him when the client is approaching a "hot area" (an area with a lot of charge), when he is backing off from it and when there is no charge left and no more information to be gained from the session.

Occasionally the client has memories which he has picked up from another source. He might have accidentally or intentionally gained false memories or memories belonging to someone else. When this happens, the meter reads in a different way. Therefore a good Clearing Practitioner will soon ask "Is it possible that these are not your memories?".

The client will then realise whether or nor they are his. The truth<sup>i</sup> of his answer will be confirmed by the meter. Further questioning soon finds the true source of where any false memories come from. The proof of this is again indicated by reads on the meter.

The validity of the truth of what is discovered during a session is confirmed by the client having many changes during the session. Sudden body movements may manifest. The client may go from feeling light and happy one minute to VERY heavy and tired the next. And later back again to feeling light and happy. The client may suddenly burst into tears, or shake. Often pains suddenly appear and then disappear in various parts of the body. And each of these physical changes is usually congruent with what has been said during the session.

The client usually makes changes for the better after a good session. Things that are discovered by the meter, and looked at and talked about thoroughly, will not trouble the client again. Often the client will have large positive improvements in their happiness, wellbeing and ability to "make things go right".

If memories are hidden from us, there is a reason for this. Sometimes the memories are too painful for a person to look at straight away. This is one problem with **hypnosis** - a person is dumped into painful memories, whether they are emotionally strong enough to face them or not.

In addition, hypnosis **does not remove** the electrical / emotional 'charge' on the memory. This can cause problems because the person now has activated memories with the charge fully intact and close to the surface – whereas

<sup>&</sup>lt;sup>4</sup> Reality: Agreement to what is. For example, two people have the same reality if they both like dogs. They have different reality if one likes dogs, but the other dislikes them.

previously the memories and charge were further away and less likely to affect the person as often.

One of the many advantages of the biofeedback meter is that the Clearing Practitioner asks the client ONLY about things which are reading. Anything which does not read is either:

- 1. Not a problem
- 2. Not true
- 3. Too big for the client to look at, at that time. However, these things occur in layers, like an onion. Once we take off the outside layer, the next layer is smaller. Once a person has looked at the less painful things, they can go back to the other issues which were originally too big to be looked at, and they will find that they can then face them easily.

Another important aspect to getting results is that the person doing the talking must feel totally safe. They must feel that the person they are talking to will believe them, and not be threatened or upset by what they are saying.

#### The Mind

What is the mind?

The mind is an energy field. It is partly made up of what are called 'pictures'. Mental image 'pictures' are often visual. But they are not always visual. Mental image 'pictures' can **ALSO** be in the form of unwanted thoughts, emotions, physical sensations and pains.

The mind is not the brain. The brain is a physical 'switchboard' between the mind and the body.

We are not a body. We are a spirit (or soul) which lives in a body. We, (the spirit) communicate with the mind, which communicates with the brain, which communicates with the body.<sup>vi, ii</sup>

Where is the mind? Part of it surrounds our body. It is not all 'in our head'. A simple experiment will prove this. Ask someone to close their eyes. Tell them not to open their eyes until you tell them to. Then tell them to visualize the dashboard on their car. Ask them to let you know when they have done that. Once they have done that, tell them to **physically touch the picture** of their dashboard **with their finger.** 

Every single person who does this touches an area IN FRONT OF THEIR BODY. They do not try to touch their head. This shows that the pictures that form our mind are OUTSIDE us. We look at the outside world THROUGH our mind.

This is one reason why different people view the world differently from others at times - because their mind is full of pictures from their past, which can affect their view of the present **when the pictures are activated**.

We record EVERYTHING that happens to us. Even when we are asleep or unconscious. This has been shown many times, for example, by people remembering in Clearing sessions what happened to them during operations and at their birth.

The mind has different levels of activity. On a lower level people are controlled by the pictures in their mind. They are activated by these pictures which they experience energetically.

On a higher level is rational thinking.

But there is an even higher level than thinking. There is KNOWING. It is much more powerful to KNOW something than to THINK it. Ultimately, Clearing works to improve a person's knowingness.

# The File Clerk

There is a part of each mind which has been called "the file clerk".<sup>vii</sup> When it is told to go and get a memory from the person's mind, it does so if the memory is there. If the person is told to remember their last birthday, the file clerk goes straight to the files and gets out the last birthday. If told to remember what the person was doing on a certain date, it will do that as well. People who have a clearing session are usually amazed at how quickly long-forgotten memories will resurface. They do so because the Clearing Practitioner gives **precise**, **carefully worded** commands to the File Clerk.

The File Clerk gives answers as long as the client has the power to confront what's coming<sup>ii</sup>. Otherwise it's hypnosis when the person is "switched off".

Sometimes the memories that are remembered are so unusual that the client may doubt the truth behind his memories. In that case, all he has to do is "make up" something that is equally strange. The "made-up" memories will not register on the meter. Only what is TRUE will read on the meter.

The Clearing Practitioner will then get the person to look deeper at areas that are registering on the meter, by commanding them to do so, which activates the file clerk. This will get to the whole truth extremely quickly. The meter measures one level below consciousness. It reacts to signals from the client that are so subtle that they aren't perceptible to the eye.

# To "As is": How Negative Thoughts and Emotions are Cleared

In the physical universe, two things cannot exist in the same space at the same time. This also applies to the invisible universe of mental charge.

A memory exists as an energy in a person's mind called a 'picture<sup>5</sup>'. It is not the memory that causes the problem, it is the NEGATIVE CHARGE associated with the pictures that causes negative emotions, thoughts and behaviour.

When we get a client to remember EXACTLY what happened to him, he creates a perfect copy of the original picture. When he creates the perfect copy this vanishes the charge on the memory. The person then knows what happened, but the pictures and charge which were affecting him negatively have now gone.

Ron Hubbard called this process to "as-is" something. The person looks at a memory exactly as it is, at which moment it vanishes and ceases to exist. The memory will remain as a gentle knowingness, but without the painful charge that caused him problems.

You yourself have probably "as-ised" things at times without realising it. Think of a time when you had an absolutely BRILLIANT idea. But a few moments later you couldn't remember what it was. No matter how much you thought, the memory never came back. You as-ised it. After creating the first thought, you then created another perfect copy. Two things cannot exist in the same place at the same time – and so your thought vanished.<sup>II, III</sup>

<sup>&</sup>lt;sup>5</sup>Mental image 'pictures' are often visual. But they are not always visual. Mental image 'pictures' can **ALSO** be in the form of unwanted thoughts, emotions, physical sensations and pains.

### The Language of the Clearing Biofeedback Meter:

How To Understand the Notes from the Sessions

# Tone Arm (TA)

As the current of the meter runs around the client's body, it meets resistance. When the client begins to remember painful past memories, the resistance of his body increases. The needle of the meter moves to the left. In order to keep the needle on the "set" position on the dial, the clearing practitioner has to move the needle to the right. To do this, he turns a knob on the face of the meter clockwise. This allows more current to flow out in order to match the increased resistance.

This knob is called the Tone Arm. It measures resistance in the following amounts:

Tone Arm (TA)	Ohms (resistance)
2	5,000
3	12,500
4	30-40,000
5	150,000
6.5	10,000,000

A person who is in a happy state of being would probably have a tone arm between 2 and 3.5. TA measures the mental tenseness of the client. TA of 5 and above is *very* high.

Note that TA goes up EXPONENTIALLY, not linearly. If a person gets TA of 5 and above, they will generally feel quite 'heavy. I describe this sometimes as feeling like a block of concrete. When the needle is between 2 and 4, when they will generally feel light and happy.

TA is one of the two things to look out for when reading the records of the sessions. TA is recorded as numbers throughout the sessions, in the right hand column.

#### Notice when TA goes up.

This means that mass is being pulled in. This generally means that a memory is brought in which the client does not want to remember now. High TA can also be caused by other things such as drugs, tiredness or pain in the body. It can also be caused by looking at the wrong areas. Or by a person lying. Or for there being something the person does not want to tell the Clearing Practitioner.

#### Most importantly, notice when TA goes down.

Two things cannot exist in the same place at the same time. When the client remembers what happened, he creates a perfect copy – which cannot exist in the same place as the original memory. **He "as-ises" the pictures<sup>6</sup> in his mind.** Therefore the tension of the memory vanishes, and the person becomes less dense. The TA then goes down.

This is why we say that he has seen the truth. Since TA and a read can occur ONLY by creating a PERFECT copy of an event, it therefore stands to reason that this is a TRUTHFUL copy of the event.

TA goes down when the client remembers at least part of the truth. This reduces the charge on the incident. A drop of even 0.1 is meaningful. A sudden drop of 0.5 - 1.5 is a major realisation of the truth.

↓ This symbol beside a number in the right hand side of the right hand column denotes when there is a sharp drop in Tone Arm.<sup>iv,vi</sup>

<sup>&</sup>lt;sup>6</sup> Mental image 'pictures' are often visual. But they are not always visual. Mental image 'pictures' can **ALSO** be in the form of unwanted thoughts, emotions, physical sensations and pains.

# **READS:** Short Falls, Falls and Long Falls

A **read** is a sudden movement to the right by the needle. Depending on the size of the movement of the needle, it is called a tick, a short fall, a fall or a long fall.

A read means a charged item was located and the charge reduced. The charge is on the words that were said IMMEDIATELY before the needle moved. This is called an 'instant read'.<sup>V</sup> How does charge come about? By the client wishing to know something and not knowing it. The harder the client wants to know and the more difficult it is for him to find out, the more charge there will be.

Finding out and knowing brings relief. Anytime the client experiences relief there will be a read.

In the notes a symbol for a read is placed directly opposite the last word that it read on **instantly**, in the right hand column. If there is **any** time delay at all between the client speaking and a read, then the symbol for the read will be placed on the **next** line.<sup>v</sup>

#### **Floating Needle**

A 'floating needle' occurs when the needle idly moves from side to side without any patterns or reactions in it. It just idly floats about. This is the most difficult needle characteristic to identify, because a series of falls could look like a floating needle.

A floating needle occurs when a major amount of mental mass has been erased. It means that there are no more painful or stressful memories, at least for a short while before the next lot of memories come in.

During a session, a floating needle may occur for only a second or two. Hopefully the session will end with a big floating needle. A big floating needle which lasts for a longer period of time indicates that all of the stress from the painful memory has been removed. It also indicates that all items of truth which are important to the client have been uncovered and talked about.

If the session does not end with a floating needle, then another session at a later date should remove the remainder of the charge.

Because a floating needle can be hard to identify, the best way to confirm it is to look at the client. If he is bright, light and happy, then that is a floating needle. If he is still tense, tired, sad or generally exhibiting negative characteristics then it is probably not a floating needle, but a series of falls and long falls.

A floating needle is identified in the notes as "F/N".<sup>v</sup>

#### 'Yes' and 'No'

The language of the biofeedback meter is simple. If you ask a question and get a read (that is, any type of fall) that means 'yes' to the question.

If you get no read that may mean no or it may mean yes.

If the client answers 'yes' to a question and the needle reads on 'yes' then that verifies that the answer is yes.

If the client answers 'no' to a question, and the needle reads on 'no' then that verifies that the answer is no

The read confirms the practitioner's question or the client's statements as true. Why? Because two things cannot exist in the same place at the same time. We have seen something exactly as it is, even if only in part. Truth is the exact consideration: the exact time, place, form and event.<sup>i</sup> Once the client creates the exact duplicate of what happened, charge is released.

(Lying or creating a false truth would only ADD to the charge that is there. This would stop the needle from reading and cause TA to go up).  $^{v}$ 

#### **Rock Slam**

#### R/S Denotes a rock slam

A Rock Slam occurs when the needle has a wild, erratic movement. It is quite amazing to see when it happens. The needle will take on a life of its own. This happens when either (1) there is a faulty connection in the wires or (2) there is an "evil purpose". 'Evil' means destructive and / or negatively controlling. The evil purpose could belong to the client, or to anyone or anything in the incident.<sup>vi</sup>

I had been told that Rock Slams were quite rare but they were encountered not infrequently during these sessions.

#### **Underlined v. not underlined words**

Words that are not underlined were said by the client – in this case, Pat.

Words that are underlined were said by the practitioner – in this case, Stephanie Relfe.

#### **Other Abbreviations**

C/L Denotes a communication lag.

This occurs when the client does not say anything for a period of time. He is in 'lag' with regards to an answer to the question.

- **VGI** Denotes "Very good indicators" meaning that the client is bright, light and happy looking.
- X An 'X' is sometimes written when there is NO read. This is usually written about an answer to a question, to record that there was in fact no read on the answer to the question. In this case, we do not know whether or not the answer was true, but suspect that it may not be absolutely true.

# A summary of symbols used

Symbol	Stands For	Description
Tk	Tick	The smallest needle movement of all. Barely discernible.
SF	Small Fall	The needle moves 0.6 to 1.5 cm to the right
F	Fall	The needle moves 1.5 to 3 cm to the right
LF	Long Fall	The needle moves 3 to 4.5 cm to the right <sup><math>v</math></sup>
$\downarrow$	Sudden drop in Tone Arm	The most significant read is when there is a Long Fall at the same time that there is a sharp drop in Tone Arm. This is denoted by the symbol $\downarrow$ beside the tone arm number.
C/L	Communication Lag	The client has stopped talking before he has fully answered the question or completed the command given by the clearing practitioner.
F/N	Floating Needle	Means that there are no more painful or stressful memories activated, at least at this moment.
R/S	Rock Slam	Indicates the presence of an evil purpose
VGI	Very Good Indicators	The client is looking bright, light and happy
Х	No read	The needle did not move at the instant end of the question or statement.
Numbers	Tone Arm	See chapter on Tone Arm (TA)

#### NOTE ON METER SENSITIVITY

Unless otherwise stated, the meter sensitivity was set at eight (8)

NOTE ON THE SESSIONS

Not every word is written here. Sometimes I wrote down just a few words to abbreviate what was going on. However, as much as possible, whenever what was said was reading or affecting TA or body movements, every word is recorded.

#### **Metabolism**

At the beginning of each session the amount of energy that the person has is measured. This is done by asking the person to take a deep breath and then let it out quickly. The needle will then fall a certain distance to the right, unless they have no reserves of energy when it will not fall at all.<sup> $\vee$ </sup>

The distance that the needle falls is recorded as "metabolism". The basic rule is that a session can only be successful if the needle falls at least one inch to the right after the person lets their breath out. This is because doing a session requires quite a lot of energy on the behalf of the client, as well as the Clearing Practitioner.

Lack of metabolism is usually caused by lack of sleep or food.

#### <u>Drugs</u>

A session can be run successfully only if the client is not under the effect of alcohol or psycho-active drugs, (ie. Anything more powerful than aspirin).

The general rule is that alcohol should not be consumed 24 hours before a session and drugs not taken seven days before a session.

# **Repeating Technique**

Our ideal state is to know everything.

The possibility of this can be better understood by reading "<u>The Holographic</u> <u>Universe</u>" (by Michael Talbot). In this book Talbot uses a hologram as a model with which to explain reality.

However, most of us don't know everything. At times we feel that we "don't know". Often the reason why we "don't know" is because we are being affected by things in our past which are still in our mind.

During a session, when someone says anything which denies that they know everything that happened in the incident being looked at, the clearing practitioner can get them to repeat what they just said. For example, if the client says "I don't know", "I can't see anything" or "I can't remember", they will to be told to repeat that exact sentence. ("I don't know, I don't know, I don't know, etc.)

Usually, once the client has repeated this statement several times, the underlying truth will surface and they WILL be able to know, see and remember. This is because they as-ised at least part of the reason why they "didn't know" when repeating this statement.<sup>vii</sup>

#### The Clearing Practitioner's Code of Ethics

The session will work only to the extent that the client feels that they are safe with the Clearing Practitioner. Therefore, a "Code of Ethics" was devised which has been found to be essential for successful sessions.<sup>iv</sup>

- 1. I agree not to evaluate a client, by word or thought. That is, I agree not to judge a client or to tell them what I think is the truth. I agree to simply question them according to how the meter is reading and to lead them to make their own discoveries.
- 2. I agree not to invalidate a client by word or thought, no matter what is discovered in a session. That is, I agree not do anything that would put the client down in any way whatsoever.
- 3. I agree to keep all appointments once made. This is because once the appointment is made memories can begin to get stirred up, getting ready to be handed over in the session.
- 4. I agree not to work with a client later than 10 pm, unless an important action needs to be completed. I agree not to work with a client who is physically tired or has not had a meal before the session. This is because a session requires a considerable amount of energy on the part of the client as well as of the Clearing Practitioner.
- 5. I agree not to work with a client who has consumed alcohol within the last 24 hours, or drugs within the last week.
- 6. I agree not to sympathise with a client but to be effective and help them to be the very best they can be.
- 7. I agree to never get angry with a client.
- 8. I agree not to let a client end the session, no matter what may come up, but to complete what I have begun.
- 9. I agree to hold a safe space for the client during the session, and to be a safe person for the client to contact at any time in the future.
- 10. I agree to have no sexual relationship with a client.
- 11.I agree to maintain ABSOLUTE CONFIDENTIALITY of the data revealed in the session.<sup>7</sup>

<sup>&</sup>lt;sup>7</sup> This agreement was not broken in these sessions. It was **the client herself** who requested that I write up and later publish the sessions.

#### <u>Kinesiology</u>

The sessions in these records were even more successful than a normal Clearing Session because they included the use of Wholistic Kinesiology on occasion.

Kinesiology is a new technology which works directly on the body. It was developed by doctors, chiropractors and acupuncturists in the U.S.A. One of the most important people in this development was George Goodheart. They pooled their knowledge and added it to Chinese medicine to develop a technology which is amazingly efficient at balancing the body energetically so that it can return to excellent health, energy and emotional strength.<sup>viii</sup>

Wholistic Kinesiology incorporates much of the best of different schools of kinesiology including Touch for Health<sup>ix</sup>, Applied Kinesiology and Educational Kinesiology. It also includes new discoveries and newly developed corrections such as the Wernicke's Correction (described later in these notes).

# Kinesiology differs from all other methods of healing by its use of muscle testing.

The basis of muscle testing is that the body is like an electrical piece of equipment, which is controlled by an incredibly complex **computer**, namely the brain. The brain is continually in communication with each of the 639 muscles in the body.

If a muscle is electrically in balance, it is possible to measure a constant electrical signal from the brain to that muscle and back again, much the same as two faxes 'talking' to each other.

However, when the body is overstressed (through a chemical, emotional, structural or electrical cause), the electrical signals in one or more muscles go weak. It is like a fuse in your fusebox blowing. The body figures that it is better to blow a fuse than the whole thing.

This is the basis of muscle testing. For example, if a person has a particular muscle in their arm 'out of balance' (as we say), then they will not be able to hold their arm in a certain position when the kinesiologist applies pressure to it.

This is particularly significant when you realise that many different parts of the body are in communication with many other parts of the body. That is,

Muscles (communicate with)	muscles
Muscles (communicate with)	organs
Organs (communicate with)	muscles
Organs (communicate with)	organs

In the above example, the muscle itself may have been weakened. However, if it is the particular muscle that communicates with the stomach the muscle may be weak because the stomach is out of balance. In another example, a person may have a weak bladder because their bladder is out of balance. However, the bladder communicates with the ankle muscles and therefore a weak bladder may have been caused by weak ankle muscles. It is virtually impossible to completely heal the body without taking the whole picture into account.

Once the weakness is located through muscle testing, the kinesiologist then 'talks' to the body. For example, by use of muscle testing the kinesiologist can ask the body any number of questions.

For example, what caused this muscle to go out of balance? If it was a chemical he can ask the body what specific food or other substance caused the body to go out of balance. If it was a deficiency, he can find out what food will re-strengthen the body.

A kinesiologist can also "balance out" a negative substance. This is a correction which enables the brain to energetically correct harm done to the body by a harmful substance.

If you wish to learn kinesiology, please visit <u>www.tfhka.org</u> and/or email <u>stephanie@relfe.com</u> for information on her training video.

#### **Emotional Stress Release**

If an imbalance is caused by a negative emotion, a kinesiologist can find out what specific emotion is involved. It is important to realise that emotions ("energy in motion") can be stored in the mind, but they can ALSO be stored in the body.

- Clearing removes negative emotions from the mind.
- Kinesiology removes negative emotions from the body.

A kinesiologist who locates an emotion or incident stored in the body can use muscle testing to find out any number of things, including WHEN it happened, and WHO was involved. It is crucial that the kinesiologist have a totally open mind when doing this.

Once the emotion is located, the kinesiologist can then do an extremely simple form of emotional stress relief.

He/she lightly places a few fingers on the other person's forehead, while the person 'looks at a video' of the emotion. When we are under stress, blood goes to the back of our brain (where the past is). But when a hand is placed on the forehead, blood moves to the front of the brain (which unfortunately most of us use only 5% of the time) where new choice is located. Within a very short period of time (often a few minutes) the person will be a lot less emotional about the particular incident, and therefore a lot less affected by it.

If you find at any time after reading these notes you experience negative emotions, it may be that something in the book has restimulated something in your own mind.

It would be a good idea for you to do Emotional Stress Release to yourself – put a hand on your forehead and close your eyes, while you look over (in your mind) what you have been reading, or doing that day.

# 'The Wernicke's Correction'

# Removing sabotaging commands from the Wernicke's area of the Brain, using Kinesiology

The mind is an energy field. Clearing removes charge from the mind. But clearing does not necessarily remove negativity from the brain. The brain is a physical 'switchboard' between the mind and the body.

Research has shown that words are stored in a specific area on the left side of the brain. What is not so well known is that there is an equivalent area in the right half of the brain which is also involved with language. Both these areas are called the Wernicke's area.

According to Professor Julian Jaynes, lecturer in Psychology at Princeton University, up until around 3,000 years ago, mankind was basically not conscious as he is today. He did not think in terms of concepts, and he was not introspective (i.e. he did not 'turn inwards and think about himself).

Instead he operated with what is called a "bicameral mind". The bicameral mind was man's mind before he developed self consciousness. Early man did not make any decisions on his own. The concept of "self", of being independent and self-reliant, did not exist.

Whenever a decision had to be made, early man looked for a "sign" from an outside authority, such as a king or a god, to tell him what to do. For example, if he went along a road which divided into two roads, he might throw some stones into the air to see which way they fell, to tell him which road to take.

Other signs that early man used to determine what action he should take when he was faced with a decision were often "voices" which he heard in his head and which brought immediate obedience.

Experiments have shown that if the Wernicke's area in the left half of the brain is electrically stimulated during speech, it will interfere with the ability to talk properly, almost halting speech.

The same type of stimulation to the Wernicke's area in the right brain, however, causes a person to hear "voices" or "commands". These are usually of an authoritarian or dictatorial nature, and can be identified as the voice of one who was feared, admired or "looked up to" by the person being stimulated. We call these commands "Wernicke's commands", because they are commands stored in the Wernicke's area of the brain.

The two Wernicke's areas are connected to each other by a thin bridge of tissue. This is where the term "bicameral mind" comes from. It seems that the "voices of the gods" were in fact internal dialogue coming from the right half of the brain.

If mankind was to become civilised, this simple mind had to greatly improve and consciousness had to develop. However, the bicameral tendency is still present today! It is the bicameral mind, the right side of the Wernicke's area, which we "hear" when we hear those little words of self-invalidation and sabotage.

The 'authorities' who might have put commands into this mind are no longer "gods" - they are anyone that we might have looked up to at some time. These can include parents, teachers, peers, politicians, and doctors.

Have you have ever been told to "grow up", "shut up", "eat up", "forget that" or "give up"? Have you ever been told "you're mad", you're bad", "you're stupid" or "you'll never make it"?

If somebody you thought was powerful said "you're too fat", "you'll never change", "you'll forget", "you're a slow learner", "eat ALL your food", you're not good enough", "strong enough", "pretty enough", "clever enough" "you'll go to hell" etc. etc. then they may have made an 'entry' in your right Wernicke's area, an implanted command, which is still influencing you to this day!

When people do any work or therapy to get rid of negative beliefs, the beliefs they try to get rid of things are usually worded as "I ..." eg. "I'm not good enough" or "I'm too fat". But "find the truth, and it will set you free". These beliefs are not filed in the brain (which is like a super powerful computer) under an "I" point of view. The commands are entered as said by another person, as if the person is right there, talking to you! For example, the belief may be "I'm no good" but the original command (which is stored in the brain) was "<u>You're</u> no good".

Normal kinesiology has a correction called a Goal Balance which is designed to get rid of negative beliefs. However, it often does not seem to work.

# However, in 1996 Australian kinesiologist David Bridgman made an astounding discovery. He realised how to remove negative beliefs from the brain!

The key to removing these beliefs is that they are stored in the brain as though another person said them e.g. "You won't remember". The brain then tries to make sense of a command and translates it, for example, as <u>"I</u> won't remember". This command then interferes with the person. To get rid of the command you must find the EXACT wording of the command, which in this case is "<u>You</u> won't remember".<sup>x</sup>

This specific kinesiology procedure enables a person to REMOVE the sabotaging commands from the brain. Instant improvement is generally noted in the person who has done this.

These commands can be put in our brain either unintentionally (as by our parents) or intentionally (as by the mind controllers).

These commands are hidden in the brain a bit like the way that 'drop down menus' are hidden on the computer screen. Sometimes you can't see the menus, but they are still there. When you do the correct kinesiology procedure, the sabotaging commands "drop down" and then you can delete them. But they do not all appear at once. It can take a number of sessions to get rid of them.

#### This is a simple, revolutionary and very powerful procedure.

The key to doing these corrections successfully is to get the EXACT wording. Generally, throughout these sessions it would take up to seven attempts each time to get the precise wording. Mostly the correct wording would be found after two or three attempts. Throughout these sessions, I did not record our incorrect attempts to find the commands. Only the successful attempts were recorded.

If you know how to muscle test and would like to know how to do the correction, please see <u>http://www.relfe.com/wernickes\_self\_sabotage.html</u> or the appendices in 'The Mars Records' <u>www.themarsrecords.com</u> or email <u>stephanie@relfe.com</u> for information on a video teaching this technique.

# Session 1: Violent Reaction

Sunday September 23 2001

Michael and I picked Pat up at the bus station. Although she had come a long way, I felt that I should give her a short kinesiology session that evening. The session was done in my home. It was lucky that God was looking after us and made sure that the first session was on a Sunday, because Michael was at home and he was definitely needed!. Pat lay on the massage table but almost as soon as I started to muscle test her I got a violent reaction. After doing sessions on hundreds of different people, I had never seen anything like this.

She was blocked, which is not unusual. What was unusual was that as soon as I tried to unblock her she began to scream. Plus her left arm started moving in circles all by itself. It would start at her side and then move in a jerky movement across her body. Then move back to her left side and then start off again. I felt that it was her body reliving a time when it was pulling against restraints. Pat thought it might have been her deflecting energy, possibly in some way connected to the "alters<sup>8</sup>" that we later discovered she had.

I called in Michael to help me and it was only through the deliverance that he did, with the help of Jesus Christ, that I was able to continue at all. The first session was quite frenetic and I did not take many notes, although it was taped and we were able to later on hear again the screams that suddenly came out of Pat's mouth -a lady who until then had appeared very gentle, soft spoken and ladylike.

I got that she had metaphysical alien circuitry on her and began to remove it, while Michael was praying for her. She also seemed to have metaphysical implants in her which I removed as best I could.

Her central nervous system, small intestine, and spleen were out of balance (as they are in many people). Her Psoas muscle, which relates to the kidney, was also out of balance, but I was not able to rebalance it until I removed a wernicke's command which was:

• "Don't remember this"

As soon as we got this wernicke's command, we again got a very big reaction from Pat. More gasps, body jerks etc. Michael had to do tons of deliverance. As he did this, pains began to manifest and disappear in different parts of Pat's body. At one time she even starteg gagging and threw up a small amount.

<sup>&</sup>lt;sup>8</sup> Alter: A split personality, generally one that has been created artificially by mind control.

I was not able to complete a full 14 muscle balance on her, even after one hour. Normally this would take me only about ten minutes. Pat needed sleep and we decided that enough had been done so I drove her back to her motel.

On the way back in the car something very odd happened. While stopped at a light I remembered that I hadn't asked her to do something that I normally do at the end of a session. In order to help people to get present after a session, and to fill in any 'holes' in their space that may have been created by clearing stuff away, I get the person to name things that they can see around them out loud.

I asked Pat to do this. She was doing it quite slowly, when suddenly she went into a trance. It was very eerie. She sat as stiff as a statue beside me in the car. She didn't answer anything I said. Her eyes were open. I didn't know what to do, and said I was taking her back to Michael, when suddenly she snapped out of it. She said that this had happened to her before. She was able to hear everything I said, but wasn't able to move or speak.

# Session 2: A Reptilian Attacks Pat's Heart

Monday September 24 2001

Because of what happened yesterday, we didn't do a session until the evening when Michael was able to be in the house in case he was needed again. He was for part of the session, although it was not anywhere near as bad as yesterday.

Pat was in balance, so yesterday's work had done something. With her eyes open, her gaits and cloacals were out of balance.

I then tested her with eyes shut. Her hyoid and cloacals were out of balance with her eyes shut. Muscle testing indicated the cause of this was an emotion "withholding at 34 years old, related to a grey alien abduction). When we got to this part in the session, her left arm started to move again in the same weird way. Pat began to get pictures of restraints, as though her arm was trying to pull away from something. I was getting the same pictures/idea as Pat, although I didn't tell her this. I had to remove some wernicke's commands. These were:

- 1. "It's useless to try" (from a reptilian scientist)
- 2. "Don't even think about it" (from a grey)
- 3. "You'll die if you remember this" (reptilian)
- 4. "Have a heart attack if you remember this" (grey) note that she had previously had many fears of having a heart attack
- 5. "Have a stroke if you remember this" (reptilian)
- 6. "Kill yourself if you remember" (government MK Ultra)
- 7. "Kill whoever helps you remember"
- 8. "Kill whoever helps you <u>to</u> remember" (Since commands No. 7 and No. 8 were basically the same, it was interesting that they put basically the same command in twice. To find a wernicke's command, every single word must be found EXACTLY. Presumably this was to make extra sure that the command sunk in).

At this stage, we both got that a remote viewer appeared and was putting hooks into Pat. They started attacking her heart. We prayed it off. Then a reptilian appeared in spirit. He wouldn't go no matter what any of the three of us did. I tried to command him to leave. I got angry. No response. Then I had a brilliant idea. I gave him a great, big, very loving hug. He took off on the instant. As soon as this happened, the pain that had appeared in Pat's heart stopped. I continued removing wernicke's commands.

- 9. "Don't tell anyone about this"
- 10. "You will die if you remember this"
- 11. "Stab to death the person who helps you remember this"

When I was driving Pat home I asked her to name things again in the car. The same thing happened as last time – she went into what looked like a trance. This time I just kept driving. She snapped out of it by the time we got to her motel.

#### **Session 3: Interview**

25<sup>th</sup> September 2001

Summary: I first gave her a kinesiology balance. She was mostly in balance. Her spleen was out of balance. Muscle testing indicated the cause was "hostility" at 18 years old. When we did this she had images of seeing a meteorite.

As is done with all new clients, an interview was done to find out which areas were the 'hot items' to be looked at first, and to see if there were any areas that could cause a problem with the sessions.

We stopped and did kinesiology. I looked for wernicke's commands that were blocking the session. As so often happened when I worked on Michael, there were ten commands. Some of these were the same that Michael has had. I guess there are only so many ways you can say "you won't remember this".

- 1. "You won't remember this"
- 2. "If you remember you will feel pain"
- 3. "Forget everything that you have seen"
- 4. "This didn't happen"
- 5. "You can't remember this"
- 6. "This is just your imagination"
- 7. "You remember nothing about this"
- 8. "This is all a dream"
- 9. "Forget all about this"
- 10. "You weren't here"

## Session 5: Testing members at a famous CEO's House

27<sup>th</sup> September 2001

Testing Pat with kinesiology, she was in balance today.

Pat's Military Cadet Unit is used to guard different areas of an important CEO's very large house during an 'Open House' when she is 14 years old. Pat is stationed on her own in an area where there are no people. Because she is a new cadet she is taken for testing. They give her a stimulant to activate parts of her brain to test for psychic abilities. Pat's test takes so well that a wall of glass that is part of the testing equipment is broken. She is then given a drug and hypnosis to forget that the incident happened.

This session went very well. I decided that we had completed this incident, since we ended with the three things you need to end an incident:

- 1. Very good indicators (client looking bright and happy)
- 2. Floating Needle
- 3. Realisations

We looked and found three wernicke's commands that needed removing. Two were normal ones. One seemed related to the session:

• "You are not psychic" (not recorded who this was from)

# Session 6: Mind Control on a Decommissioned Naval Ship

28<sup>th</sup> September 2001

Pat woke up feeling terrible, exhausted and sore all over. Each night when I had dropped her off I had reminded her to lock herself in with the portable door lock. For some reason I did not do so last night. (Was my mind blocked? I think so.). There was another motel with rooms facing the same wall of motel rooms that Pat was staying in. Her door faced a verandah on the outside of the building). Last night Pat did not lock herself in. She remembered that she was about to do so when she was given a thought-command "Don't do it", and she followed this order.

I gave her a balance. Sure enough, she was way out of balance again. Her central nervous system was out of balance. Muscle testing indicated the cause was hypnotism. Her cloacals were out of balance. Muscle testing indicated this was because she was interfered with last night. In addition her spleen was out of balance.

Summary of session:

First we look at Pat being abducted last night after she was mentally coerced into leaving the portable door lock off the door.

Then we move onto another incident. Pat goes with ten young people on a Military Cadet outing to stay a couple of days and nights on a decommissioned ship – a battleship, or destroyer or frigate. During the session Pat called it a battleship but later she said it might have been another any kind of naval ship. She is put in a berth with a girl she doesn't know. At midnight Pat is taken in her pyjamas to a room where she is restrained in a chair, and told to look at lights which program three compartmentalized personalities in her.

We also remove wernicke's commands designed to have Pat kill herself and others should these memories surface.

# Session 7: Transported to Mars

29<sup>th</sup> September 2001

Summary: We look further at the incident on the battleship. Pat is moved to another area which she feels is Mars, although all she can see is a tunnel. A woman in uniform decided to "keep her".

We also remove many booby traps which were designed to kill her and others should memories of Mars surface.

This 'gasp' was because Pat felt something was going wrong with her heart. She felt that she had 'booby traps' to stop her remembering Mars. We stopped and used kinesiology to find wernicke's commands. Sure enough, there were ten. It took one to five attempts to get the correct wording for each command.

- 1. "You die if you remember this"
- 2. "You go insane if you remember this"
- 3. "Kill yourself if you remember this"

At this point we got interference. I got Pat to make 'spongy stuff' to absorb the attack, and then to make it so that the attack got directed to the earth. This seemed to work.

- 4. "Remembering Mars terminates you"
- 5. "You have a stroke if you remember the program"
- 6. "Your kidneys fail if you remember the program"
- 7. "Die now if you remember the program"

Pat mentioned that these felt much worse coming out of her head than the others had done.

- 8. "Terminate yourself if you remember going to Mars"
- 9. "You have a fatal asthma attack if you remember Mars" (Pat had a history of asthma)
- 10. "You have a fatal heart attack if you remember Mars"

Because this was Pat's last day with me, we then continued with the session with the meter.

- 4. "Your heart stops beating if you remember Mars"

- 7. "You have respiratory failure if you remember"
- 8. "You are ours" (this was from a reptilian doctor)

## LATER THAT NIGHT

Pat phoned me soon after I dropped her off at her motel. This time I followed her up to her room, and didn't leave her room until she had locked herself in with the portable door lock. Walking back down the stairs I felt (imagined?) people watching me from the opposite motel.

When Pat got to her room, there was a message waiting for her on the phone. The message said:

"Hello Patti! This is Susan from Home Realty, calling because you called and made an appointment to look at some rental property". She left a phone number but Pat didn't write it down.

This was about as weird as it gets. Note:

- Pat was many hundreds of miles from home, and was certainly not looking for any property anywhere
- Only her family had the phone number of the motel
- Patti was the name that Pat had when she was a young girl.
- Susan was the name of the girl on the battleship

Pat left the next day. We gave her a lift to the bus station. She told us that later that night she tried to phone us, but was told that our phone was out of order. In fact, it wasn't. We got other calls that night. And that night Pat received a call from home in her motel room.

#### THE BUS TRIP HOME

We were a bit concerned about Pat getting home, but we asked God to look after her and reminded her to be on the look-out. She promised that she would stay alert to any possible trouble as she boarded the bus in Norfolk.

Pat called us soon after arriving home to relate what had occurred during the trip. She told us that she picked up intense psychic vibes on the way to the Washington D.C. bus terminal, which made her feel extremely uncomforatable, sinc she had to change buses there. The terminal was so packed with people that she had to shove her way thorugh just to find the waiting line for the next New York City bus. When she got in line, two men in front of her immediately turned and started talking to her. Even though they were very friendly, her inner alarm went off, and she became suspicious of their intentions. They were being *too* friendly, *too* quickly. It seemed like they were trying to make her relax and let her guard down. Pat tensed instead, remembering the words of a co-UFO investigator: "Don't seek safety in a crowd. They can take you very easily in that situation. They'll surround you with their agents, move in, sedate you, and whisk you out of the area without anyone else noticing because there's just too many people around to actually see what's happening".

Although Pat wasn't absolutely sure this was such an attempt, she listened to her intuition and knew she needed to get out of the situation. At that moment, another bus, traveling an alternative route to her home was announced over the loudspeaker, and she herd "Go that way" in her mind. Pat didn't question whether the thought was her own decision or inner guidance, she just acted on the advice without any hesitation.

She hurried over to the departure door and gave her ticket to the driver. He looked at it and said, "You're supposed to be on the New York bus." Pat nodded but made no attempt to leave, waiting instead with a silent prayer on her lips. The driver stared at the ticket as if considering something – or was he listening to inner or divine guidance? – then he tore the New York and Scranton tickets off and told her to get on the bus. With a sigh of relief, Pat boarded the bus, and thanked God for getting her safely away from the terminal. She felt that she had definitely escaped something.

The driver turned out to be "God-lovin', America-lovin' " man. Everything went fine until a replacement driver took over later on and did a head count. He was supposed to have twenty people, but he counted twenty-one!

Pat kept quiet. She had made it this far, and she trusted God to get her the rest of the way. The original driver suddenly announced that he would recheck the tickets for the new driver. "I'll start at the back," he stated, knowing that Pat was sitting at the front. Halfway through the recheck, he quit and said, "You're behind schedule. Check them at your next stop." Then he gathered his belongings and left the bus. Pat watched him disappear into the terminal and sent him a heartfelt, whispered, "Thank you!"

Between that stop and the next, Pat kept working out what she would say to the new driver when he found out that she was #21. She wasn't nervous, though. It was as if someone were sitting next to her in the empty seat and constantly assuring her that "It will be all right." When her ticket was finally checked, the bus driver returned it to her without a word! Pat said another "Thank you" to her heavenly protector. There wasn't anymore said about the mysterious extra passenger, and Pat made it home.

## LATER ON

After Pat returned home she phoned us, and said she could hear clicking on our phone. A few days both Pat and we had a LOT of static on our phones. This continued to us the whole time we were in Norfolk. The static stopped immediately we moved to another state.

# A Personal Letter from Pat

Dear Reader:

Thank you for downloading and reading, "The Mars Force: Pat's Story."

When I first went to see Michael and Stephanie, I had no idea that I had been on Mars. In fact, it was when she requested that I say something that couldn't possibly be true that I blurted out, "I am on Mars and fighting the aliens in the ships," thinking that it would demonstrate the needle motion that indicated a false read. (She was attempting to show me the difference between a true and false statement in answer to a question I had asked.) Stephanie stared at the biofeedback meter and said, "Say something that *couldn't* possibly be true." My eyes widened and my mouth fell open when I realized that she was implying that the statement I had just made had read true on the meter. I suspected that I had been abducted and programmed, but I never fathomed the depth of involvement that I had with the shadow government's covert, off-world operations.

What I learned during the sessions amazed me, but I also found it hard to believe. What made it difficult to dismiss, however, was the fact that it explained the inner me so well. For example:

I feel safe wearing sunglasses. During the years I saw a psychotherapist because of problems with altered states, I would wear sunglasses in the sessions. It was considered a major breakthrough the day the doctor got me to take off my glasses; but, even though I removed them, I felt totally vulnerable and open to attack without them. In the sessions with Stephanie, I found out that I had been forced to look at lights (sunglasses?), and when I tried to avert my gaze or turn away, my head was yanked back and restrained. My eyes were forced open if I tried to close them, and I was unable to prevent this because my wrists were strapped down. *I felt totally vulnerable and open to attack.* This also explains my aversion to anyone touching my face, eyes, or near my eyes. When Stephanie was removing Wernicke commands, she had to touch all around my eyes. I allowed it, but tensed inside each time she did it. As the sessions progressed, it became less traumatic when she touched that area. Of course, I completely trusted her and that helped.

I am *terrified* of being restrained. If someone grabbed my wrists and refused to let go, I would do to get free, including begging, cursing, threatening, screaming, and hurting the person who is doing the holding. The longer my wrists are held, the more my rational thought vanishes, and I begin to function on a primal level. In the sessions with Stephanie, I discovered that I had been restrained by military doctors many times while I was given drugs, tested, and programmed. Since I didn't come from a family who habitually tied me to a chair

when I misbehaved as a child, there is no other explanation, in my mind, for my intense fear of restraint, except what surfaced in the sessions.

I have constant mental impressions of being a psychic soldier. I always thought it was just my imagination, but now I'm not so quick to explain it in those terms. Why are the images so frequent, and why is the conviction so strong? I remember the night I watched the movie, "Conspiracy Theory." When Jerry (played by Mel Gibson) was abducted, restrained in the chair, drugged, and questioned, I suddenly started hyper-ventilating and shivering. Why did that scene cause such a severe reaction in me? Having an imagination isn't traumatic, but having actually experienced what he was portraying is! I also have impressions of having killed people. It confused me because I'm a gentle person, who highly respects another's right to life, or so I thought. I realize that none of this is part of the 'here and now' me, but stems from my alters which were created by the shadow government. My psychic alter is *very* powerful and deadly. I found that out, quite by chance, in February, 2002.

I decided to try a mental exercise from the book, "The Silva Mind Control Method." It consisted of counting backwards while looking upward behind my closed eyelids at a 20-degree angle. For some reason, this position of the eyes automatically produces an Alpha state in the brain. (I find it interesting that the posters and pictures of Harry Potter depict him with this eye position. Does the shadow government want today's children to be in Alpha most of the time? \*Parents, please take note and take action.) The natural Alpha state produced by this eve position can be deepened to reach Lower Level Alpha by counting backwards from 100 to 1. I already knew how easily I slipped into an altered state, so I shortened the exercise by 75 and counted backwards from 25 to 1. I did this once a day for three days, and each time, I felt myself go deeper. On the fourth day, something happened. I started my mental count as usual, but I only reached 12 when a massive surge of energy swept through my body. I had never felt such a powerful current of energy before. At the same instant, my mind opened to me like the pages of a book. I connected to my psychic alter and my killer alter. I 'saw' some of the psychic terminations that I had done, and I experienced the unemotional ruthlessness that was my 'mind set' when I completed them. This connection lasted only about 20 seconds, but it left me gasping afterwards. I remembered everything because it had been triggered by the exercise, not by the shadow government. This incident has totally convinced me that my psychic alter and killer alter do exist; logically, if these parts of me exist, then the other parts must exist as well. If the other parts exist, then, logically, something had to have happened to me to create them.

I was only 14 when I joined the military cadet program and all of this started. I'm not saying that *every* cadet program is involved (although it is possible the cadet program concept was the creation of the shadow government to begin with - a good way to get to our nation's youth for military mind control and programming.) The reason that I wrote this letter to you was to outline some of the signs and symptoms that these experiences left me with, so you will be able to recognize the same ones in your child if your son or daughter is a member of a cadet program. If they demonstrate any of the behavior or mental impressions that I have detailed in this letter, please take them out of the cadet program and get help for them.

I have withheld the name of the famous C.E.O. and the cadet program for my own safety. If anything happens to me, I have instructed Michael and Stephanie to publish the name of the C.E.O. and the cadet program online. I also left the same information and instruction with two friends. I state, here and now, I'm **not** suicidal, and if this should occur, it must be considered murder and the appropriate action taken.

If you suspect mind-controlled involvement in the 'Mars Project' or any military black op, please contact the nearest clearing therapist to have biofeedback meter sessions. If you are lucky enough to live in Michael's and Stephanie's current location or near enough to make the journey, seek them out. I *highly* recommend them.

God bless and protect you,

Pat

# Session 8: Wernicke's to Kill Us

3<sup>rd</sup> September 2002 am

Pat came back for a second series of approximately ten hours of kinesiology and clearing sessions.

In this, the first session:

I did a kinesiology balance on Pat. As I hadn't seen her for a year, it was not surprising that she was quite out of balance.

Her gaits and cloacals were out of balance.

Then I was unable to muscle test accurately. The cause appeard to be interference from remote viewers. I tried doing deliverance against them but that didn't work. Then I brought Michael in. He also tried deliverance but that also didn't work until he prayed against principalities. This caused a lot of retching and other reactions in Pat.

With her eyes shut, her cloacals and spleen were out of balance. When I balanced these, her arm started moving by itself. Muscle testing indicated that the cause was three draconians who were interfering.

Muscle testing indicated that she had been abducted at least four times since we had last seen her. I then looked for booby traps. The following wernicke's commands were removed from Pat's alter called Anne.

- "Kill them in their sleep" (this referred to us, Michael and Stephanie Relfe, as Pat was staying with us during this visit and not at a hotel).
- "Give a floating strike to the Relfe's in their sleep" (this is a killing martial art technique, done to the throat).

Pat then went into a trance, and was unable to do the eye movements which are needed to remove wernicke's commands.

"Give a Dim Mak strike to the Relfe's in their sleep" (another killing Martial arts technique)

# Session 9: Wernicke's from Reptilians

3<sup>rd</sup> September 2002 pm

We removed many wernicke's commands from Pat given to her by reptilians:

- 1. "You remember nothing that we said"
- 2. "You remain ours" (from reptilians)
- "Do not resist us"
   "Do as we say"
- 5. "Resistance is futile"
- 6. "Don't think for yourself"
- 7. "We are your friends"
- 8. "Don't remember wernicke's"
- 9. "Stephanie and Michael are your enemy"
- 10. "Michael and Stephanie are your enemy" (This was tricky of them to use much the same command, only worded slightly differently)
- 11. "Your mind is a blank"
- 12. "You remember nothing of this"
- 13. "Don't pray"
- 14. "Don't practice psychic stuff"
- 15. "Put off psychic practice"
- 16. "Don't believe in yourself"

The following commands were removed from her alter called Laurie:

- 1. "Remember this"
- 2. "Never forget your mission"
- 3. "You have perfect memory"
- 4. "You have photographic memory"
- 5. "You have eidic (>>>> ?????????? PAT WAS THIS "EIDECTIC MEMORY?)
- 6. "Tell only us"
- 7. "Your debriefing is only to us"
- 8. "Watch him"
- 9. "Watch Michael"
- 10. "Trust no one"
- 11. "You have no friends but us"
- 12. "We love you"

Pat – also, I didn't take many notes of how you looked and felt before and after sessions, so if you can add anything along those lines that would be great.

#### Session 11: Torture to Suppress Psychic Abilities I

September 5<sup>th</sup> 2002 am

**Note from Stephanie Relfe**: Some of the following will be very disturbing to many people. Note that it took a lot of bravery for Pat to confront and talk about these awful things. I repeat, Pat is a very gentle, ladylike, kind person and would normally never imagine even half of the horrible things that were done to her and which were removed from her conscious memory.

Start of Session	4.6	
What's been happening?		
I have Montauk on my mind.	F	
Where were you yesterday, with		
things on your mind?		
Mars	F	
Do you have an incident in

I'm on a table	F		Note the read
The doctor I dislike is there			
I'm angry because he's the one

Exactly Montauk?			I ask this because I got a read on the previous statement, but it wasn't an instant read (as indicated by being on a different line). His indicates the

#### Session 15: Pat Abducted from our Home

September 7<sup>th</sup> 2002 pm

Summary:

This was unusual because in this session Pat was abducted from our apartment in Arizona where she was staying – but we ourselves had not been abducted from this home.

This was due to Michael changing the Quantum Matrix not just in our home but also in ourselves every few days. (See "The Mars Records, Book 2" for instructions at <u>www.themarsrecords.com</u>).

Michael got the realization that one has to change the Quantum Matrix inside ONESELF to stop abductions after he got taken when we stopped in a car part while traveling from Virginia to Arizona around April 2002.

They did not do too much to him at that time as it was a new group, because it was in a new area. We assume they figured that the Virginia people had overstated the problem when the Virginia people said they couldn't get him, and that the Arizona people figured they could pick him up again when they wanted. They were wrong. Before that time Michael did not change the Quantum Matrix inside ourselves. After that time he did it every few days. We have not been taken between that time and time of writing, November 2003.

When he changed the Quantum Matrix in ourselves, he would always touch me so that we would move together to a new reality. (See <u>www.realityshifters.com</u> for information on changing realities). If you have children, you want to touch everyone in the family when you do this.

Pat – would you like to make a summary?

At the start of this session Pat looked pretty awful. Last night she had looked fine.

I'm seeing myself outside last night

Pat felt that she had been abducted last night, and definitely looked out of balance, so I			
gave her a kinesiology balance. She was way out of balance: Her Central Nervous			

Sytem was out of balance, and wouldn't correct by the normal procedure. Muscle testing indicated that I had to remove wernicke's commands before the correction would take.

The following wernicke's commands were removed:

- "Forget this"
   "Don't remember this"
   "You weren't here"
   "This is a dream"
   "You don't know anything about this"
   "You won't remember this"
- "You are under our control"
   "Follow your programming"
   "Your programming holds"

- 10. "Die if you remember"
- 11. "Fall if you remember"

Then I balanced out two drugs. Then we returned to the meter.

We then stopped and removed wernicke's commands against remembering the codes that activate her. Pat had TONS of resistance to getting rid of these – crying, back arching, gagging, deep breathing etc.. She kept stopping what I told her to do, and started gasping, saying she was afraid they would come true etc.

Throughout these wernicke's commands, Michael was doing deliverance. He said there was a demon attached to each command, which was why Pat was reacting so much to each one.

Once they were all removed, she was fine.

The commands were:

- 1. "Die if you remember your codes"
- 2. "Have heart failure if you remember your codes"
- 3. "Stop your heart if you remember your codes"
- 4. "Have a stroke if you remember your codes"
- 5. "Burn if you remember your codes"
- 6. "Have a brain hemorrhage if you remember your codes"

## Session 18: Wernicke's to keep her at Work

September 9<sup>th</sup> 2002 pm, pm

The following wernicke's commands were removed, all to do with keeping her at the hospital she worked at:

- 1. "Stay here"
- 2. "You can't make it at any other job"
- 3. "You need to go to work"
- 4. "You can't be self employed"
- 5. "You need this job"
- 6. "Never quit"

## Session 19: Wernicke's for Negative Hallucinations

September 9<sup>th</sup> 2002 pm

The following wernicke's commands were removed:

- 1. "Do not see anyone who wears this badge"
- 2. "You don't see me when I wear this badge"
- 3. "I'm invisible when I wear this badge"
- 4. "We are invisible to you when we wear this badge"
- 5. "Whoever ears this badge is invisible"
- 6. "A person wearing this badge does not exist"
- 7. "We do not exist when we wear this badge"
- 8. "Anyone wearing this badge will not be seen"
- 9. "You can never see your handler"
- 10. "Your handler is always invisible"

### Session 20: Wernicke's for Maintaining Control

September 10<sup>th</sup> 2002

The following wernicke's commands were removed. They had been given to Pat when she was abducted from our house:

- 1. "Don't publish"
- 2. "Publishing this is dangerous"
- 3. "Never publish this"
- 4. "Don't do clearing"
- 5. "Don't do kinesiology"
- 6. "Don't tell anyone about this"
- 7. "Keep this to yourself"
- 8. "Don't publish "The Mars Force Part 2"
- 9. "It's not safe to publish"
- 10. "You'll never be famous"

#### PAT – I HAVE A FEW MORE WERNICKE'S WRITTEN DOWN, BUT DON'T KNOW WHERE THEY FIT IT IN. They are:

"Don't use the portable door lock "The door is always open to us" "Strangle the Relfes" "Kill the Relfes"

After the Second Series of Sessions

This ended the second lot of 10 hours of sessions, making a total of about 20 hours of session that Pat had received.

After these sessions, when Pat returned home, a number of workers commented that her eyes looked different, in a positive sense.

#### PAT – WHAT ELSE WAS DIFFERENT????

### Session 21: Wernicke's to stop removal of Wernicke's

October 23<sup>rd</sup>, 2003

Pat got the courage and commitment to come back for a third series of ten hours of sessions a year later.

This time she wanted particularly to deal with things that had been happening to her recently. In particular, she found it hard to believe that there were really things going on at her hospital where she worked. She also wanted to resolve issues related to relationships, as she was single. She had been married, but said that she had been the main cause for the breaking up of the marriage. (The controllers do not want their subjects to have outside support from anyone and program their subjects to always be single).

First, I did kinesiology on Pat. Her body was blocked electrically. As with the first time I ever worked on Pat, when I unblocked her, we got a major reaction – lots of gagging, crying, some screaming, back arching, heavy breathing etc. etc. Luckily, this time it wasn't as bad as the first time.

Her cloacals were out of balance.

She had lots of invisible technology on her, mainly on her back and head, which I pulled off.

There was also demonic interference. Muscle testing indicated that she was being attacked by 300 fallen angels. Michael helped remove these.

She had a particularly nasty reaction when I pulled off some invisible technology, and Michael prayed for the removal of, a hook into another dimension in her back.

We also had demonic interference. From contact with Bill Schnoebelen we had learned that some demonic interference comes from celestial beings (principalities etc.) but there can be other souces. One of these sources is "old ones". Muscle testing indicated we had three "old ones" in the room, attacking Pat.

Pat of Pat's alter called "Anne" was hooked into another dimension.

Pat herself was hooked into four other dimensions, on each of her first three bodies.

It would appear that her controllers have read my book. I removed the following wernicke's commands that were to prevent removal of wernicke's commands:

1. "You cannot undo this wernicke's command"

(At this stage Pat could 'see' and reacted to an attack from five remote viewers, who were saying "shut her down". With prayer from both of us and Michael we remove their influence)

- 2. "This wernicke's command is here forever"
- 3. "Your wernicke's commands cannot be removed"

Again, we got interference. Muscle testing indicated it came from three bosses, in this case, draconians.

The air felt a lot clearer after their influence was removed.

Some booby traps were removed: "Have lung failure if you remember this" "Your heart will stop if you remember this" "Stop living if you remember this" "Have a brain aneurism if you remember this"

With eyes open, Pat was then in balance. With her eyes shut, her central nervous system was out of balance. I then rebalanced this.

They keep my energy suppressed because otherwise it's too dangerous, on a permanent level. That's why I don't have any metabolism.		This is referring to a very strange fact. I was trained to make each client take a very big breath and then let it out quickly before each session. The needle will then move, and should move at least an inch. This indicates that the client has enough metabolism to run the session. However, since I have known Pat I have got virtually NO readings of metabolism. However, at her very first session, since she had come a long way and looked and felt as though she had energy, I tried to run a session anyway and it ran fine. She has always run good sessions even though at no time up till now has she registered as having any metabolism on the meter. It is very strange. Normally when a person registers as having no metabolism from the needle falling less than 1", they are quite tired or hungry and will not have enough energy to run a session. (A clearing session requires a LOT of energy).
I had an important realization in the past year: They keep my psychic abilities and energy suppressed by movement	F	Note the read

When?		
This year. They're very upset by what's been published. And they're upset by what I'm planning, to take out the system. It's a complete immersion and reprogramming, to try to fortify all control points they had before. There are lots of machines all over the place. They're trying to redo		

what they did before, because it's not holding. They don't do a physical performance. They connect right to the mind.

sensual. No violent bursts		4.1	

Suddenly, Pat got overwhelmed with many, many pictures of things she had done as Laurie. They included lots of pictures of physical hurt and abuse. Also sexual acts with men, women, non-humans and ritualistic acts.

Because she was so much in overwhelm (crying, not able to handle it etc.) I put down the cans and went to her and did Emotional Stress Release on her so that the body could remove as much stress as quickly as possible. During this time Pat was extremely upset and crying etc. It was extremely emotional. She was totally shocked to get all of these memories, which she had had no idea of.

During this time Pat got realizations which I did not record as I was busy holding her forehead and not writing things down. I also did some muscle testing to back up some of her realizations.

One realization she had was that she had had other children besides the human ones show has consciously. We then returned to the meter.

Four	F	Note the read
Are any of them 100% human?		
No		
I never saw them.		
There are three girls and a boy		
alive now.		
(I was having trouble keeping up		
with everything at this stage as		
there was so much emotion and		
things going on at once): Pat got		
the realization that her experiences		
as Laurie were one reason why		
she found it hard to look at men.		
What breath is necessary to get		
into Pat One?		
Shallow, normal breathing		
Do that		

I ended the session here but Pat looked like a total wreck. Once a happy person, she now looked as though she had been through a major disaster and looked totally terrible and miserable. We had been going on with the session for quite some time (1.5 hours) and I figured she needed rest and some time to get over this, so I ended the session here.

Had I known she would react this way to Laurie's alter, I would have ended the session on a high after accessing Pat 3, but since time was limited that thought did not occur to me at the time. Luckily, Pat can continue to access Pat 3 through the breathing pattern.

#### Session 25: Abducted Last Night to Mars

October 27<sup>th</sup> 2003

Summary:

Yesterday, after the session I told Pat about something that had happened to Michael and me in the previous year. We went to a body-mind expo. There Michael met a woman who looked to be in her early 20s but was in fact in her early 40s. After talking with her he felt strongly that she was someone with psychic abilities who had had things done to her without her conscious knowledge of them. She then told us of a number of things which had happened to her which backed this up – including having telescope lenses appear in her room in mid air!!!!

I muscle tested to find out if she had metapsychic abilities and got that she did, but I couldn't work out just what it was she could do. It wasn't any of the usual like remote viewing, remote killing, clairvoyance, telekinesis etc. Finally a thought went through my mind. A few months previously we had seen the B-Grade movie "The Sender". In that movie a young girl has the ability to teleport herself and others. She is wanted by both good and bad guys alike for this ability. I tested the woman and got that she was in fact a sender. I also muscle thest that there are only a few dozen people in the world with that ability – to transport gates across space (I'm not sure how accurate that information is).

This ability is crucial for intergalactic expansion. We believe that there are two main ways to get to another planet, other than by ship which is way too slow. You can go through a jump-gate as Michael did to Mars. The trouble with this is, you still have to walk a certain distance. So if a planet was many light years away, it would be too far, even with a jump-gate. The other alternative is a stargate, as in the movie and TV series "Stargate SG". With a stargate travel is instantaneous. It is quite possible that the secret government either has a stargate or is trying to get one. See

http://www.exopolitics.org/Study-Paper2.htm for some details of this.

In either case of the jump-gate or stargate, you still need someone to travel to the other end and put in the gate on the other side. If the planet is light years away, this will not happen for a many years. But, if you have people who can teleport the gate there, then hey-presto! You're done!

Yesterday Pat was feeling good. Today she felt and looked awful.

I explained all of the above to Pat after yesterday's session, and she started to feel very, very strange. Both of us got goose-bumps all over our bodies (a good indication of the truth). I muscle tested her, and then got that she is a sender. Although the following session she does not have quite the ability of the woman we met, as there are different KINDS of senders. I believe that Pat may be di

I started by doing a kinesiology balance on her. She had been in balance on the previous day, and should have still been in balance. But she was way out of balance. Her Cloacals and Gall bladder were out of balance. When I tried to correct this by normal means, it didn't work. Muscle testing indicated the cause was the emotion "hostility" from humans and reptilians, and that I needed to do a clearing session in order to get her back to balance.

They don't grab me or touch me –

We stopped and did kinesiology, since I was not getting enough reads. There were seven wernicke's commands, all with eyes shut:

- 1. "At our command, feel pain" (from the council who Pat said were hybrids of aliens and humans. Muscle testing confirmed this) (Note: If anyone out there still thinks the greys are good guys, please reconsider how you would feel if humans did this!)
- 2. "At our command, you will forget"
- "At our command, you will kill yourself"
   "At our command, you will kill others"
- 5. "At our command, you will come to us"
- 6. "At our command, you will activate"
- 7. "At our command, you will deactivate"

I then balanced out the energy of two drugs. We then returned to the meter.

when she is in sleep mod	SF		
(Talk about a few other things)	F/N	3.6	
(In between this and the last			
session I discussed different types			
of teleportation with Michael.			
Michael said there was a story			
published in Nexus magazine that			
was also on Art Bell's website for a			
while of a guy who called himself			
the 'wave rider'. The story was a			
copy of three faxes that he was			
meant to have sent in. The 'wave			
rider' said he was a US army			
enlisted man with a special kind of			
blood that enabled him to time			
travel using a small psychotronic			
tuner to tune his mind. He would			
have something material from the			
time or place he wanted to go to			
and would focus on it for several			
hours, and then he would create a			
portal that he could walk through to			
that time and place. Eventually he			
said that he got so that he did not			
need the machine – he could do it			
himself.) So, realizing that there is			
a type of teleporter that can			
transport themselves, if not other			
people or things, I asked Pat the			
following question after explaining			
the above to her:			
Are you a 'wave rider'	F		Note the read

### Session 28: Wernicke's to keep her at the Hospital October 28<sup>th</sup> 2003 am

Summary: Pat's dizziness of yesterday was gone when she awoke.

Start of session	5.0	This is a high TA, especially when considering that the last session ended with a low 3.0. So I ask:		
Do you have an incident in				
restimulation?				
Yes				
(Before the session Pat told me				
that she felt there was a				
termination program in her, which				
activated when she was sleeping.				
<u>So I asked):</u>				
Is this incident related to the				
termination program in your sleep	F	Note the read		
I feel that they have put in a				
program for me to die in my sleep.				
I feel I won't wake up	5.0			
<ul> <li>We stopped and did kinesiology. The following wernicke's commands were removed:</li> <li>1. "Die in your sleep at our command" (from hybrids)</li> <li>2. "Activate the REM cycle termination program when programmed"</li> <li>3. "Execute the sleep termination when triggered"</li> </ul>				
We then removed the following commands designed to keep her working at the hospital:				
1. "Stay here"				
When we removed this program we got a MAJOR reaction, when I tried to correct it. I had to call in Michael on the walky talky to help out. Pat gagged, couldn't speak, arched her back etc. etc. She also had thoughts activated which said "don't do this".				
So I looked for booby traps which were designed to keep her from leaving the hospital. We found some:				
<ol> <li>"Die if these commands are removed"</li> <li>"Die if you inactivate these commands"</li> </ol>				

2. "Die if you inactivate these commands"
 3. "Die if you cancel this program"

Pat then saw the next lot of commands, and 'as-ised' them without us having to access them.

Pat had recently had thoughts of moving to a bigger city hospital. Again, Muscle testing indicated there were three programs in her, designed to keep her working in hospitals, if not necessarily her own hospital. Again, once we found this out, Pat 'as-ised' the remaining commands, so I did not have to remove them for them to go.

We then returned to the cans.
